Lunch hour. A test lab at one of BEHRINGER's three Research and Development centers. Aris could be out grabbing a burger. Instead, he's perfecting his tone through a new guitar amp prototype.

Not surprising when a company has as many passionate musicians working for it as we do. Recording, jamming, DJ-ing or playing in bands is an integral part of BEHRINGER culture.

Also not surprising when you consider that our founder Uli Behringer still finds the time to regularly sit in playing jazz piano at clubs.

The fact that many of us are musicians, is one reason we strive to pack so much value into our products. And so much care into how we build them.

This catalog has a lot of pictures of BEHRINGER employees in it. That's because we're proud of the 3500 people who design, develop and produce our electronics, loudspeakers and musical instruments.

Together, we *are* BEHRINGER.
JUST LISTEN.

The surest way to build it right is to build it yourself.

BEHRINGER CITY, where musical passion meets quality.

The city of Zhong Shan in Guangdong Province, China, is a modern metropolis with scenic parks and wide boulevards. It is also where the heart of BEHRINGER's manufacturing operations is situated.

BEHRINGER City is a vibrant community that integrates every facet of the production chain under one roof. This is where every BEHRINGER product is manufactured and distributed globally. More than 3,000 enthusiastic employees work, live and play in a sprawling, over 1 million sq. ft. city, comprised of manufacturing facilities and living/recreational area.

Founded by Uli Behringer, who remains deeply involved in day-to-day operations, BEHRINGER has a track record of manufacturing excellence that spans nearly two decades. BEHRINGER City was built as a model of efficiency. Each building is meticulously planned and designed to fulfill clearly defined functions. Factories and operations such as Electronics, Loudspeakers, Wood, Electric Guitars, Digital Pianos,

Research and Development, Administration and Warehousing are all strategically positioned to offer an uninterrupted flow in the manufacturing process.

BEHRINGER's application of integrated production principles has heralded a significant increase in efficiency and successful implementation of Total Quality Management. This means that every product model has passed a set of stringent reliability tests and leaves the manufacturing line in strict compliance with internationally recognized standards.

With BEHRINGER City now in full operation, BEHRINGER is set to continue to blaze the trail of success ahead into the future. Indeed, BEHRINGER City is the culmination of the company's passion for music and its commitment to offer top-notch products at affordable prices. When it comes to quality products and superior manufacturing processes, the choice is clear—Just listen.

The latest manufacturing fad is outsourcing. Have somebody else build it. Somewhere. Just keep those containers coming.

At BEHRINGER, we believe that the only way to ensure quality and maximize value is to build our products in our own state-of-the-art factory. An ISO 9001/9002-certified factory where the working conditions are so good that we have a waiting list for employment.

From the circuitry in our mixers to the fretwork on our guitars, it's all made under one roof (well, actually six really, *really* big roofs). We fabricate our own cabinets in a huge woodshop, stuff our own circuit boards and test, re-test and re-re-test every unit before it leaves.

Unlike the vast majority of our competitors, we build our own speakers. We mold the cones from raw pulp, machine our own parts and wind our own voice coils. It was worth the huge investment.

What does this all mean to you? More value for your money when you buy a BEHRINGER product. And the assurance that it will last through years of use and abuse.

Innovation times three hundred.

Almost three hundred products. Almost three hundred Research and Development staff members in four different countries.

Electronic engineers, software programmers, mechanical engineers and Computer Aided Design operators. Obsessed Product Managers who pour their passion into new product concepts. Test engineers who make sure our products comply with every applicable international safety standard.

All led by Uli Behringer, who is directly involved with every digital, analog and

Uli Behringer (top left) with members of our Makati, Philippines Product Development team.

acoustic product we make—from determining the feature set to industrial design to final manufacturing. This passion for music combined with the latest technology has led us to

innovations like DSP active loudspeakers, RSM effects modeling and the amazing new DDM4000 digital DJ mixer.

It just never stops.

Live sound or recording. Guitar, bass or DJing. Just pick your BEHRINGER “signal chain.”

Microphones

SINGLE DIAPHRAGM CONDENSER MICROPHONE B-1

- Hand-assembled condenser microphone
- 1" gold-sputtered single-diaphragm capsule
- Cardioid pickup pattern
- Unsurpassed audio quality
- Ideal as main and support microphone for studio and live applications
- Exceptionally flat frequency response and incredible musicality
- Low-noise FET circuitry
- Switchable high-pass filter and –10 dB pad
- Carrying case, shockmount and windscreen included

RRP: \$199.99

DUAL DIAPHRAGM CONDENSER MICROPHONE B-2 PRO

- Hand-assembled condenser microphone
- 1" gold-sputtered dual-diaphragm capsule
- Selectable cardioid, omnidirectional or figure-eight pickup pattern
- Unsurpassed audio quality
- Ideal as main and support microphone for studio and live applications
- Exceptionally flat frequency response and incredible musicality
- Low-noise FET circuitry
- Switchable high-pass filter and -10 dB pad
- Carrying case, shockmount and windscreen included

RRP: \$299.99

SINGLE DIAPHRAGM CONDENSER MICROPHONE B-5

- Professional true condenser microphone for studio and live applications
- 2 interchangeable capsules with cardioid and omnidirectional pickup patterns
- Low-mass gold-sputtered diaphragm for ultimate sound reproduction
- Perfect for acoustic instruments, voice and overhead etc.
- Ultra-low noise transformerless FET input eliminates low-frequency distortion
- Smooth, super-wide frequency response and incredible musicality
- Switchable low-frequency roll-off and -10 dB input attenuation
- Gold-plated 3-pin XLR output connector

RRP: \$199.99

Microphone preamplifiers: Turn to page 25

STUDIO CONDENSER MICROPHONE C-1

- Professional large-diaphragm condenser microphone for unsurpassed audio quality
- Ideal as main and support microphone for studio and live applications
- Exceptionally flat frequency response and ultra-high sound resolution
- Cardioid pickup pattern for outstanding sound source separation and feedback rejection
- Ultra-low noise transformerless FET input circuitry
- LED indicates phantom power operation
- Gold-plated 3-pin XLR output connector for perfect signal transmission
- Swivel stand mount and carrying case included

RRP: \$89.99

STUDIO CONDENSER MICROPHONE SET C-2

- 2 professional true condenser microphones for studio recording and live applications
- Sold as matched pair—perfect for stereophonic recording
- Low-mass diaphragm for ultra-wide frequency response and ultimate sound reproduction
- Perfect for acoustic instruments, overhead, piano, etc.
- Cardioid pickup pattern for effective feedback elimination
- Switchable low-frequency roll-off and –10 dB input attenuation
- Custom microphone stand adapters, windscreens, stereo-bar and transport case included

RRP: \$119.99

STUDIO CONDENSER MICROPHONE C-3

- Professional large dual-diaphragm condenser microphone for studio recording and live applications
- Ideal as main and support microphone for studio and live applications
- Selectable cardioid, omnidirectional or figure eight pickup pattern
- Pressure-gradient transducer with shock-mounted dual-diaphragm capsule
- Perfect for acoustic instruments, overhead, piano, etc.
- Exceptionally flat frequency response and ultra-high sound resolution
- Ultra-low noise transformerless FET input eliminates low-frequency distortion
- LED indicates phantom power operation

RRP: \$119.99

MEASUREMENT CONDENSER MICROPHONE ECM8000

- Precision electret condenser microphone
- Perfectly complements the ULTRACURVE PRO DEQ2496 or any RTA device
- Ultra-linear frequency response from 15 Hz to 20 kHz
- Optimal for acoustic measurement applications
- Use with any real-time analyzer with +15 to +48 V phantom power
- Delivered in a rugged hard case with mic clip and stand adapter

RRP: \$99.99

ULTRAVOICE XM8500 & XM1800S DYNAMIC MICROPHONE KITS

XM8500

XM1800S

- Excellent vocal/instrumental dynamic microphones
- Presence lift in critical mid-range gives you maximum voice projection
- Cardioid characteristic with excellent feedback suppression
- Sturdy, reliable metal construction
- Balanced low-noise XLR output
- Two-stage pop filter
- Exceptional off-axis rejection eliminates feedback problems
- Delivered in a rugged case with mic clip and stand adapter
- XM1800S available as 3-pack only

XM8500 RRP: \$49.99

XM1800S RRP: \$79.99

Studio and DJ headphones

HEADPHONES HPM1000

- Multi-purpose headphones
- Ultra-wide frequency response 20 Hz - 20 kHz
- High dynamic range
- High-resolution capsule
- 1/8" connector plus 1/4" adapter included
- Single-sided cord
- Oval-shaped ear cups
- Comfortable headband
- Sensitivity: 105 dB @ 1 kHz
- Impedance: 32 Ohms

RRP: \$29.99

HEADPHONES HPS3000

- High-performance studio headphones
- Ultra-wide frequency response 20 Hz - 20 kHz
- High-definition bass and super-transparent highs
- Ultra-wide dynamic range
- High-efficiency cobalt capsule
- 1/8" connector plus 1/4" adapter included
- Single-sided cord with oxygen-free copper wires
- Ultra-rugged headband construction
- Optimized oval-shaped ear cups
- Sensitivity: 110 dB @ 1 kHz
- Impedance: 64 Ohms

RRP: \$49.99

ULTRALINK UL2000M wireless microphone system

- High-performance UHF True Diversity microphone system with 320 selectable frequencies for ultimate flexibility
- True Diversity technology of the receiver and proprietary microphone antenna design ensures exceptionally long range for great signal reliability and freedom of movement
- Simultaneous operation of up to 8 units maximum*
- Ultra-wide audio bandwidth for highest signal integrity
- High-performance IRC compander guarantees incredible dynamics and low noise
- Excellent cardioid-pattern microphone perfect for vocal

RRP: \$399.99

HEADPHONES HPS5000

- Closed-type high-performance studio headphones
- Ultra-wide frequency response 20 Hz - 20 kHz
- High-definition bass and super-transparent highs
- Ultra-wide dynamic range
- High-efficiency cobalt capsule
- Single-sided coiled cord with oxygen-free copper wires
- Ultra-rugged headband construction
- Optimized oval-shaped ear cups
- Sensitivity: 113 dB @ 1 kHz
- Impedance: 32 Ohms

RRP: \$69.99

DJ HEADPHONES HPX4000

- Closed-type high-definition DJ headphones
- Ultra-wide frequency response 20 Hz - 20 kHz
- High-definition bass and super-transparent highs
- Ultra-high dynamic range
- High-efficiency cobalt capsule
- Single-sided coiled cord with oxygen-free copper wires
- Round swivelling ear cups
- Ultra-rugged headband construction
- Sensitivity: 113 dB @ 1 kHz
- Impedance: 32 Ohms

RRP: \$69.99

DJ HEADPHONES HPX2000

- High-definition DJ headphones
- Ultra-wide frequency response 20 Hz - 20 kHz
- High-performance bass and super-transparent highs
- Ultra-high dynamic range
- High-efficiency cobalt capsule
- 1/8" connector plus 1/4" adapter included
- Single-sided cord with oxygen-free copper wires
- Rotating, reversible round-shaped ear cups
- Ultra-rugged headband construction
- Sensitivity: 110 dB @ 1 kHz
- Impedance: 64 Ohms

RRP: \$49.99

Headphone amplifiers: Turn to page 25

ULTRALINK UL2000B wireless system

RRP: \$499.99

With the revolutionary ULTRALINK UL2000B UHF True Diversity beltpack/headset system, you will experience one of the best performing and innovative designs available in this segment. Choose from 320 transmission frequencies and enjoy the powerful advantage of simultaneous operation for up to 8 systems.* The IRC compander guarantees incredible dynamics and low noise. You get an excellent headset microphone perfect for vocal applications, featuring a Panasonic condenser transducer.

- High-performance UHF True Diversity beltpack/headset system with 320 selectable frequencies for ultimate flexibility
- True Diversity technology and proprietary antenna design ensure exceptionally long range for greatest signal reliability and freedom of movement
- Simultaneous operation of up to 8 units maximum*
- Ultra-wide audio bandwidth for highest signal integrity
- IRC compander guarantees incredible dynamics and low noise
- Excellent headset microphone perfect for vocal applications, featuring a Panasonic condenser transducer

Outside the Electromagnetic chamber in our Testing Laboratories at BEHRINGER City. This is where we test all BEHRINGER products for compliance with standards such as FCC emissions, CE and safety. The facility represents a half million dollar investment in Standards Compliance. And includes at least one machine that goes "ping".

XENYX premium mic / line mixer series

From Baltimore to Berlin, nearly a million tone freaks have tapped into the warm, musical sound of XENYX analog mixers by BEHRINGER. We've spliced the best of the old with the best of the new to create a neo-classic "British EQ" that captures the same sonic characteristics of the mega-console desks of the '60s and '70s that made music history. And with their built-in

XENYX 2442FX & 2222FX USB / ANALOG MIC LINE MIXERS with 24-bit digital effects

XENYX 2442FX
• 24-input 4/2-bus mixer
• 10 XENYX Mic Preamps
RRP: \$599.99

XENYX 2222FX
• 22-input 2/2-bus mixer
• 8 XENYX Mic Preamps
RRP: \$499.99

- Common features:**
- Premium ultra low-noise, high headroom analog mixer
 - Neo-classic "British" 3-band EQs w/ semi-parametric mid band for warm and musical sound
 - Studio-grade 24-bit stereo FX processor w/ 100 awesome presets including reverb, chorus, flanger, delay, pitch shifter and various multi-effects
 - USB/Audio interface included for connecting directly to your computer. Free audio recording and editing software downloadable at www.behringer.com

XENYX 1832FX & 1622FX USB / ANALOG MIC LINE MIXERS with 24-bit digital effects

XENYX 1832FX
• 18-input 3/2-bus mixer
• 6 XENYX Mic Preamps
• 9-band stereo graphic EQ, FBQ Feedback Detection system, XPQ 3D stereo surround effect, Voice Cancellor function
RRP: \$449.99

XENYX 1622FX
• 16-input 2/2-bus mixer
• 4 XENYX Mic Preamps
RRP: \$399.99

- Common features:**
- Premium ultra low-noise, high headroom analog mixer
 - Neo-classic "British" 3-band EQs w/ semi-parametric mid band for warm and musical sound
 - Studio-grade 24-bit stereo FX processor w/ 100 awesome presets including reverb, chorus, flanger, delay, pitch shifter and various multi-effects

XENYX 1222FX USB / ANALOG MIC LINE MIXERS with 24-bit digital effects

- 16 input 2/2-bus premium ultra low-noise, high headroom analog mixer
- Neo-classic "British" 3-band EQs for warm and musical sound
- Studio-grade 24-bit stereo FX processor w/ 100 awesome presets including reverb, chorus, flanger, delay, pitch shifter and various multi-effects
- USB/Audio interface included for connecting directly to your computer
- Free audio recording and editing software downloadable at www.behringer.com
- 7-band graphic EQ allows precise frequency correction of monitor or main mixes
- Revolutionary FBQ Feedback Detection System instantly reveals critical frequencies
- Breathtaking XPQ 3D stereo surround effect for more vitality and enhanced stereo image
- Voice Canceller function for easy-to-use sing-along applications
- 4 fully equipped stereo input channels with 2 additional mic inputs on ch.s 5/6 & 7/8, plus 3-band EQ and input trim control
- Channel inserts on each mono channel for flexible connection of outboard equipment

- Channel inserts on each mono channel plus main mix inserts
- Peak LEDs, mute, main mix and subgroup routing switches, solo and PFL functions on all channels
- Balanced main mix outputs with 1/4" jack and gold-plated XLR connectors, separate control room, headphones and stereo tape outputs
- Internal autorange power supply for maximum flexibility (100-240 V~), noise-free audio, superior transient response

- USB/Audio interface included for connecting directly to your computer. Free audio recording and editing software downloadable at www.behringer.com
- Channel inserts on each mono channel for flexible connection of outboard equipment
- Peak LEDs, mute, main mix and subgroup routing switches, solo and PFL functions on all channels
- Balanced main mix outputs with 1/4" jack and gold-plated XLR connectors, separate control room, headphones and stereo tape outputs

- Peak LEDs and mute switch on all channels
- Balanced main mix outputs with 1/4" jack and gold-plated XLR connectors, separate, control room, headphones and stereo tape outputs
- Long-wearing 60 mm logarithmic-taper faders and sealed rotary controls
- Internal autorange power supply for maximum flexibility (100-240 V~), noise-free audio, superior transient response plus low power consumption
- Rack mount brackets included for ultimate flexibility

XENYX mic preamps, you'll get the sound quality and dynamic range of boutique-style mic preamps without having to haul extra gear. The XENYX product line offers 13 mixers with

XENYX 1202FX & 1002FX with 24-bit digital effects

XENYX 1202FX
• 12-input 2-bus mixer
• 4 XENYX Mic Preamps
RRP: \$199.99

XENYX 1002FX
• 10-input 2-bus mixer
• 2 XENYX Mic Preamps
RRP: \$159.99

- Common features:**
- British EQs and 24-bit multi-FX processor
 - FX send control per channel for internal FX processor and/or as external send
 - Main mix outputs plus separate control room, phones and stereo CD/tape outputs
 - CD/tape inputs assignable to main mix or control room/phones outputs
 - 1 post fader FX send per channel for external FX devices
 - Main mix outputs plus separate control room, phones and stereo CD/tape outputs CD/tape inputs assignable to main mix or control room/phones outputs

XENYX 1204FX & 1204

XENYX 1204FX
• 12-input 2/2-bus mixer
• 4 XENYX Mic Preamps
• 24-bit stereo FX processor with 100 presets
RRP: \$299.99

XENYX 1204
• 12-input 2/2-bus mixer
• 4 XENYX Mic Preamps
RRP: \$249.99

- Common features:**
- British EQs and USB/audio interface
 - 2 subgroups with separate outputs for added routing flexibility
 - 2 multi-functional stereo aux returns with flexible routing
 - Balanced main mix outputs with gold-plated XLR connectors plus separate control room, headphones & stereo tape outputs
 - Mute/Alt 3-4 can be used to send signals for special applications
 - Free audio recording and editing software downloadable at www.behringer.com

XENYX 1202 & 1002

XENYX 1202
• 12-input 2-bus mixer
• 4 XENYX Mic Preamps
RRP: \$159.99

XENYX 1002
• 10-input 2-bus mixer
• 2 XENYX Mic Preamps
RRP: \$129.99

- Common features:**
- British EQs
 - 1 post fader FX send per channel for external FX devices
 - Main mix outputs plus separate control room, phones and stereo CD/tape outputs
 - CD/tape inputs assignable to main mix or control room/phones outputs
 - FX to control room function helps to monitor effect signal via headphones and control room outputs

XENYX 802 & 502

XENYX 802
• 8-input 2-bus mixer
• 2 XENYX Mic Preamps
• 1 post fader FX send per channel for external FX devices- 1 stereo aux return for FX applications or as separate stereo input
- RRP: \$99.99

XENYX 502
• 5-input 2-bus mixer
• 1 XENYX Mic Preamp
RRP: \$79.99

- Common features:**
- British EQs (XENYX 502: 1 British EQ)
 - CD/tape inputs assignable to main mix or control room/phones outputs
 - Premium ultra low-noise, high headroom analog mixer
 - Neo-classic "British" EQ for warm and musical sound
 - Main mix outputs plus separate control room, phones and stereo CD/tape outputs CD/tape inputs assignable to main mix or control room/phones outputs

Classic analog mixers

EURODESK SL3242FX-PRO & SL2442FX-PRO with dual 24-bit effects processors

SL3242FX-PRO
• 32-input, 4-bus mic/line mixer
• 24 professional, studio-grade IMP "Invisible" Mic Preamps
RRP: \$999.99

SL2442FX-PRO
• 24-input, 4-bus mic/line mixer
• 16 professional, studio-grade IMP "Invisible" Mic Preamps
RRP: \$799.99

- Common features:**
- 2 independent 24-bit digital stereo FX processors with 99 VIRTUALIZER presets
 - High-precision 9-band stereo graphic EQ
 - Revolutionary FBQ Feedback Detection system
 - 2 stereo input channels with 4-band EQ
 - 3-band EQ plus switchable low cut filter on all mono channels
 - Inserts on each mono channel and main mix
 - 4 subgroups and additional mono output

EURODESK MX9000 24-channel inline mic / line mixing console

- 24 fully inline channels with IMP "Invisible" Mic Preamps, inserts, direct outs and phantom power
- ULN² design, highest possible headroom, ultra-transparent audio
- 8 subgroups, 6 aux sends and 6 stereo aux returns
- 4-band EQ with 2 semi-parametric mids plus low cut on all main channels
- 2-band EQ on all mix 8 channels
- Integrated 12-segment LED meter bridge for all channels, subgroups and main/PFL/solo
- Full-fledged routing, mute, PFL and solo-in-place functions
- Built-in routable Talkback mic, two BNC lamp sockets
- 2 separate headphone mixes and Talkback facility with built-in microphone
- Rugged external 400-Watt rack mount power supply with superior transient response

EURORACK PRO RX1602 16-input line mixer

- Extremely flexible keyboard and multi-purpose sub-mixer, multi-track monitoring mixer, level translator, FX return sub-mixer, etc.
- 16 balanced high-headroom line inputs for individual stereo or mono use of each section
- ULN² design, highest possible headroom, ultra-transparent audio
- Balance and level controls plus +4/-10 level selection per channel
- Monitor/FX send control per section

• Internal autorange SMPs¹

RRP: \$2499.99

RRP: \$199.99

- Illuminated "mute" button per section with additional "clip" indication
- Monitor/FX signal assignable to phones output for added flexibility
- Highly accurate 2 x 7-segment LED level meters and individual level control for left and right main mix signal

Every BEHRINGER mixer gets tested at least five times before it's approved for packing.

Classic analog mixers

EURORACK PRO RX1202FX 12-input mic / line rack mixer with 8 mic preamps

- Ultra-low noise design 12-input mic/line rack mixer
- 8 new IMP "Invisible" Mic Preamps with 130 dB dynamic range for 24-bit, 192 kHz sampling rate inputs and an ultra-wide 60 dB gain range
- Integrated 24-bit digital stereo FX processor with 100 presets
- Effective, extremely musical 2-band EQ and Clip LED on all channels
- 4 balanced high-headroom line inputs
- 4580 operational amplifiers for lowest noise and distortion
- 2 aux sends per channel: 1 pre fader for monitoring

RRP: \$349.99

- applications, 1 post fader for internal FX or as external send
- Switchable +48 V phantom power for condenser microphones

ULTRALINK PRO MX882 8-in / 2-out line mixer / line splitter

- 8 in/2 out line mixer, 2 in/8 out line splitter
- Each channel can operate independently in mixer or splitter mode
- Use as a 6 in/6 out level matching amp or direct inject box
- Converts levels between -10 dBV and +4 dBu
- Extremely wide 5 Hz to 200 kHz frequency bandwidth

RRP: \$199.99

EURORACK UBB1002 10-input line mixer

RRP: \$199.99

- ULN² design for high headroom and ultra-transparent audio
- Effective, extremely musical 3-band EQ
- 10 balanced high-headroom line inputs
- State-of-the-art 4580 operational amplifiers provide lowest noise and distortion—better than 4560 op amps
- 1 post fader FX send and 1 pre fader MON send per channel for external FX devices and monitor applications
- Clip LEDs on all channels and dedicated inserts on all mono channels
- Main mix outputs plus separate headphones and stereo tape outputs
- Tape inputs assignable to main mix or phones output
- Switchable phantom power for condenser microphones
- 9 V battery operation or power supply (included)

MICROMIX MX400 line mixer

- Ultra-compact 4-channel line mixer
- Highest sonic quality even at maximum output level
- Input Level control for each channel
- Ultra-low noise 4580 operational amplifiers for outstanding audio performance
- DC 12-Volt adapter included
- High-quality components and exceptionally rugged construction ensure long life

RRP: \$49.99

Final mixer packaging. The quality goes in before the styrofoam end caps go on. We always wanted to say that.

EUROPOWER PM P Series powered mixers

These EUROPOWER mixers represent the next generation of our popular powered mixers with impressive **1,200-Watts** for PMP3000/5000 and **500-Watts** for PMP1000.

They all serve but one mission: to deliver massive power and great sound at an amazingly light weight!

This incredible performance is achieved through a new-generation amplifier technology, boasting heavily increased power, crystal-clear sound with an ultra-compact design and super-light weight.

Twenty-four-bit stereo FX processors, IMP mic preamps and a Voice Canceller round off this impressive package of power features.

EUROPOWER PMP5000

RRP: \$899.99

- 16 input channels
- 12 IMP mic preamps with switchable +48V phantom power
- Extremely high power in a compact form factor
- 2 x **600-Watts** into 4Ωs / 2 x **300-Watts** into 8Ωs
- Dual 24-bit stereo FX processors with 100 awesome presets
- FBQ Feedback Detection
- Voice Canceller function removes singer's voice from recordings for Karaoke applications
- Standby switch mutes all mic channels during breaks while background music is provided via tape inputs
- XPQ 3D stereo surround effect
- 3-band EQ, switchable Low cut filter and Clip LEDs on all mono channels
- Speaker Processing function adjusts frequency response to match professional speaker systems like the BEHRINGER EUROLIVE series
- Stereo 7-band graphic EQ allows precise frequency correction of monitor or main outputs

EUROPOWER PMP3000

RRP: \$699.99

- 12 input channels
- 8 IMP mic preamps with switchable +48V phantom power
- Extremely high power in a compact form factor
- 2 x **600-Watts** into 4Ωs / 2 x **300-Watts** into 8Ωs
- 24-bit stereo FX processor with 100 awesome presets
- FBQ Feedback Detection
- Voice Canceller function removes singer's voice from recordings for Karaoke applications
- Standby switch mutes all mic channels during breaks while background music is provided via tape inputs
- XPQ 3D stereo surround effect
- 3-band EQ, switchable Low cut filter and Clip LEDs on all mono channels
- Speaker Processing function adjusts frequency response to match professional speaker systems like the BEHRINGER EUROLIVE series
- Stereo 7-band graphic EQ allows precise frequency correction of monitor or main outputs

EUROPOWER PMP1000

RRP: \$599.99

- 10 input channels
- 6 IMP mic preamps with switchable +48V phantom power
- Extremely high power in a compact form factor
- 2 x **250-Watts** into 4Ωs / 2 x **135-Watts** into 8Ωs
- 24-bit stereo FX processor with 100 awesome presets

- FBQ Feedback Detection
- Voice Canceller function removes singer's voice from recordings for Karaoke applications
- Standby switch mutes all mic channels during breaks while background music is provided via tape inputs
- XPQ 3D stereo surround effect
- 3-band EQ, switchable Low cut filter and Clip LEDs on all mono channels
- Stereo 7-band graphic EQ allows precise frequency correction of monitor or main outputs

Innovative amplifier technology, incredible sonic performance, super-light weight and a wide variety of power ratings are the main qualities of these new powered mixers. Each mixer has our 24-bit stereo FX processor technology featuring studio-grade effects including top-quality reverbs, delays and even a pitch-shifter. The advanced FBQ Feedback Detection system in most models combined with graphic EQ make them the first-choice tools for accurate sound production. Get a PMP powered mixer and impress your audience with a great performance.

EUROPOWER PMP1280S

RRP: \$699.99

- 10 input channels / 8 mic preamps
- 2 x **600-Watts** into 4Ωs / 2 x **300-Watts** into 8Ωs
- Stereo output
- Dual 24-bit stereo FX processors with 100 awesome presets
- FBQ Feedback Detection instantly reveals critical frequencies for easy feedback removal
- Graphic EQ lets you optimize your speakers to the room environment
- 3-band EQ, switchable Pad and Clip LEDs on all mono channels
- Speaker Processing function adjusts frequency response to match professional speaker systems like the BEHRINGER EUROLIVE series
- Rack mountable

EUROPOWER PMP880S

RRP: \$649.99

- 10 input channels / 8 mic preamps
- 2 x **350-Watts** into 4Ωs / 2 x **225-Watts** into 8Ωs
- Stereo output
- Dual 24-bit stereo FX processors with 100 awesome presets
- FBQ Feedback Detection instantly reveals critical frequencies for easy feedback removal
- Graphic EQ lets you optimize your speakers to the room environment
- 3-band EQ, switchable Pad and Clip LEDs on all mono channels
- Speaker Processing function adjusts frequency response to match professional speaker systems like the BEHRINGER EUROLIVE series

EUROPOWER PMP860M

RRP: \$549.99

- 6 input channels / 6 mic preamps
- **350-Watts** into 4Ωs / **225-Watts** into 8Ωs
- 24-bit stereo FX processor with 100 awesome presets
- FBQ Feedback Detection instantly reveals critical frequencies for easy feedback removal
- Graphic EQ lets you optimize your speakers to the room environment
- 3-band EQ, switchable Pad and Clip LEDs on all mono channels
- Speaker Processing function adjusts frequency response to match professional speaker systems like the BEHRINGER EUROLIVE series
- Rack mountable

EUROPOWER PMP2000

RRP: \$499.99

- 11 input channels / 9 mic preamps
- 2 x **350-Watts** into 4Ωs / 2 x **225-Watts** into 8Ωs
- 24-bit stereo FX processor with 100 awesome presets
- Graphic EQ lets you optimize your speakers to the room environment
- Effective, extremely musical 3-band EQ, switchable Pad and Clip LEDs on all mono channels
- Ultra-Low Noise design, high headroom and ultra-transparent audio
- Tough, durable construction ensures long life

EUROPOWER PMP518M

RRP: \$399.99

- 5 input channels / 5 mic preamps
- **180-Watts** into 4Ωs / **100-Watts** into 8Ωs
- 24-bit stereo FX processor with 100 awesome presets
- Graphic EQ lets you optimize your speakers to the room environment
- Effective, extremely musical 2-band EQ, switchable Pad and Clip LEDs on all mono channels
- Ultra-Low Noise design, high headroom and ultra-transparent audio
- Tough, durable construction ensures long life
- Rack mountable

A loudspeaker is comprised of an enclosure and transducers—the parts you know as woofers, tweeters and horns.

It's pretty easy to build an enclosure. But it takes a major investment in skilled craftspeople and precision equipment to build transducers.

So most speaker “manufacturers” just order their transducers out of a catalog. Which means they settle for what’s available, leave quality control to somebody else...and end up passing higher prices on to you for the most critical parts of their loudspeaker systems.

Not at BEHRINGER. We make our own speaker cones, wind our own coils, machine our own parts. Then we pass the savings on to you.

We formulate our own pulp and create our own cones.

Cone / surround attachment process.

Backplate machining.

We wind over 100 different sizes of voice coils.

Coil baking. Nothin' sez lovin' like somethin' from the oven.

Compression driver voice coil inspection.

Voice coil / spider attachment on a 10-inch LF transducer.

Don't try this at home.

Individual testing, calibration and certification of a TRUTH B2031 active studio monitor.

Studio monitor enclosure hand finish.

TRUTH B2031 final assembly.

EUROLIVE ACTIVE 12-inch and 15-inch 2-way louds peaker systems including new 24-bit DSP designs

EUROLIVE B315A, B312A, B215A & B212A high-power 2-way active PA speakers

These members of the EUROLIVE family are high-power, 2-way lightweight PA active speaker solutions which deliver superb sound even at extreme levels. Each one boasts an integrated sound processor for ultimate system control and reliable speaker protection. They feature a long-excursion bass driver and

1.25" titanium diaphragm compression driver. In addition, you get a ULN Mic/Line input with Volume control plus a dedicated 2-band EQ. Each delivers excellent sound with wide dispetrson even at extreme sound pressure levels.

- Separate high and low-frequency amplifiers
- Integrated sound processor for ultimate system control and speaker protection
- Extremely powerful long-excursion driver provides incredibly deep bass and acoustic power
- State-of-the-art 1.25" titanium-diaphragm compression driver for exceptional high-frequency reproduction
- Wide dispersion and large format exponential/conical horn
- Ultra-low noise Mic/Line input with Volume control and Clip LED
- Dedicated 2-band EQ for perfect sound adjustment

EUROLIVE PERFORMER E1520A & E1220A high-power active speaker systems

These new active loudspeaker systems are capable of dishing out **400-Watts** of massive power and crystal-clear sound. The E1520A and E1220A PA speakers feature a powerful 15" or 12" long-excursion woofer, combined with a high-resolution 1.75" titanium-diaphragm compression driver. A smart cabinet design allows you to arrange your speakers in clusters and stacks, use them on pole-mount stands or as floor monitor wedges. The EUROLIVE Series has been built to withstand many years of use on the road.

- High-power **400-Watt** 2-way PA sound reinforcement speaker/floor monitor
- Exceptional sound quality, wide frequency bandwidth and extensive dynamic range
- Integrated sound processor for ultimate system control and speaker protection
- Extremely powerful long-excursion driver provides incredibly deep bass and acoustic power

- State-of-the-art 1.75" titanium-diaphragm compression driver for exceptional high-frequency reproduction
- Low noise Mic/Line input with Volume control and Clip LED

EUROLIVE F1220A floor monitor

The EUROLIVE F1220A is a 150-Watt active floor monitor for live and playback applications. Exceptional sound quality, wide frequency bandwidth and dynamic response are just part of the story. You also get an adjustable feedback filter, an integrated limiter for ultimate system control and speaker protection, and a mic/line input!

- High-performance, **150-Watt**, active monitor system
- Adjustable feedback filter and integrated limiter for ultimate system control and speaker protection
- Low noise Mic/Line input with Volume control and peak LED
- Dedicated 3-band EQ
- Powerful 12" long-excursion driver provides incredibly deep bass and acoustic power
- High-resolution 1" HF driver for precisely defined treble reproduction

Digital signal processing for loudspeakers

Why is the sound you experience at a concert so much better than what you hear at your favorite nightclub? Up until now, you needed racks of complex outboard gear, a team of experts to run it all, and space you simply don't have in a small club.

Say hello to the BEHRINGER DSP Series! From the moment you plug in, the DSP's internal processing computer takes over, optimizing your signal the same way racks and racks of gear do, but with a significant advantage—it's all digital. All the 24-bit/48 kHz processing gear is built right into each loudspeaker, including a phase- and time-correction crossover, dual limiters and even a noise gate—so you can leave the racks at home and still experience sound quality rivaling that of state-of-the-art studio monitors.

The DSP Series is also extremely versatile and easy to operate. Simple and elegant, the 2-band EQ provides up to 15 dB of boost/cut and a Low Cut filter is

included to eliminate unwanted low frequency content, like microphone handling noise or rumble. A single Contour switch allows you to choose between the Speech mode, with its crisply defined midrange, or the Music mode. Whichever setting you choose, an automatically variable filter "rides" the signal, ensuring optimal performance at all output levels. And no steep learning curve here—the DSP Series does all the work for you!

We pack this technology into every DSP Series enclosure, along with 600-Watts of the cleanest, butt-kickin'-est power on the planet. With their ruler-flat frequency response, audience-wide dispersion and sophisticated digital processing, DSP Series loudspeakers crank like nothing else in their class.

JUST LISTEN today and discover how the new BEHRINGER DSP Series can catapult your performance to the next level!

EUROLIVE B512DSP, B415DSP & B412DSP with advanced 24-bit digital processing

Ruler-flat frequency response. Zero phase and time domain distortion. Behold the power of sophisticated digital signal processing.

How do you break the laws of physics and electronics and take speaker performance to new levels? By converting the signal into 24-bit digital and doing tricks with it that simply aren't possible with conventional component circuitry.

Until now, you had to pay a fortune for a DSP-controlled active speaker system or racks of outboard processing to get the astonishing studio monitor sound quality of our DSP Series.

These three state-of-the-art EUROLIVE PA speaker systems are each built around an impressive 24-bit DSP engine that controls the crossover, a dual compressor/limiter and an intelligent dynamic EQ to guarantee perfect sound at all volume levels.

Under the hood is a bi-amped **600-Watt** amplifier combination that drives a high-efficiency 15" (B415DSP) or 12" (B512DSP/B412DSP) woofer for massive punch and a 1.75" titanium tweeter embedded in an exponential/conical horn with multi-cell aperture throat.

EUROLIVE B1520DSP/B1220DSP with advanced 24-bit digital signal processing

The B1520DSP and B1220DSP are state-of-the-art digitally controlled **600-Watt**, 2-way PA speaker systems with integrated mixers and on-board amplifiers. For ultimate system control, both offer a 24-bit digital signal processor which includes a crossover as well as phase and time correction features for perfect driver alignment, while a dual compressor/limiter provides total system protection.

Additional features such as digital noise gate, low cut filter, dynamic EQ, plus the renowned EUROLIVE sound quality, make these true state-of-the-art speaker systems.

- High-power **600-Watt** 2-way PA sound reinforcement speaker systems
- 24-bit digital signal processor that controls crossover as well as phase and time corrections etc. for ultimate sound control
- Integrated mixer features 2 ULN Mic/Line inputs with individual volume controls and peak LEDs
- Extremely powerful 15" (B1520DSP)/ 12" (B1220DSP) long-excursion driver
- State-of-the-art 1.75" titanium-diaphragm compression driver
- Heavily-braced cabinet with weight-balanced handles

EUROLIVE loudspeaker systems

EUROLIVE P2520, P1800S, P1520, P1220F, P1220 & P1020

This range of EUROLIVE PA speakers offers a wide palette of PA speakers in different sizes and power ratings, perfect for the professional requirements of musicians and commercial installations. All speakers include long-excursion drivers for massive acoustic power and titanium-diaphragm compression drivers for exceptional high-frequency reproduction. Cabinets are hand-built using heavy-duty MDF, generous internal bracing and included ergonomic weight-balanced carry handles.

The P1800S speaker is a matching professional 18" subwoofer, boasting the ability to handle up to **1,600-Watts** of power and deliver high SPLs at frequencies as low as 40Hz.

- P2520**
- Professional PA speaker with two extremely powerful 15" long-excursion drivers
 - **900-Watt** power handling
 - State-of-the-art 1.75" titanium-diaphragm compression driver

- P1520, P1220F, P1220 & P1020**
- Professional 2-way PA speaker systems with single 15", 12" and 10" long-excursion drivers for incredibly deep bass and acoustic power
 - State-of-the-art 1.75" titanium-diaphragm compression driver for exceptional high-frequency reproduction
 - Computer-optimized horn design for ultra-wide sound dispersion

- P1800S**
- Professional 18" subwoofer for PA applications
 - 4-inch voice coil
 - 200 Hz High pass recommended
 - Pole socket for mounting with commercial spacer rods
 - **1600-Watt** power handling capability

EUROLIVE B2520 PRO speaker system

The B2520 PRO high-performance loudspeaker ideally complements our EUROLIVE PRO series. Two extremely powerful 15" long-excursion drivers and a 1.75" titanium diaphragm compression driver, wrapped in an innovative design concept, efficiently translate up to **1,600-Watts** of power into brutal punch and crystal-clear sound. If you want to level the house, get a pair of B2520 PRO's!

- **1600-Watt** peak power handling
- **400-Watt** continuous power handling
- Extremely robust dual 15" long-excursion drivers provide incredibly deep bass and acoustic power
- Proprietary 1.75" titanium diaphragm compression driver for exceptional high-frequency reproduction
- Ultra-wide 50 Hz-18 kHz frequency range (-10 dB)
- Extremely high sound pressure level (95 dB full space 1W@ 1 m)
- Overload-protection circuitry for optimal HF driver protection
- Trapezoidal cabinet with internal bracing
- Weatherproof metal grille
- Weight-balanced handles

EUROLIVE B215 & B212 speaker systems

- B215**
- **600-Watt** total power
 - 15" low frequency transducer
 - 1.75" compression driver

- B212**
- **500-Watt** total power
 - 12" low frequency transducer
 - 1.75" compression driver

- Common features:**
- Ultra-compact and lightweight system delivers excellent sound even at extreme sound pressure levels
 - Ultra-wide dispersion, large-format exponential/conical horn
 - Overload-protection circuitry ensures optimal HF driver protection
 - 2 professional speaker connectors (compatible with Neutrik Speakon connectors) plus ¼" jack connectors

EUROLIVE S1530 3-way, S1520, S1220F, S1220 & S1020 2-way and S1800S subwoofer

This series of PA speakers is designed to meet the needs of gigging bands, mobile DJs and installations. The speakers are available in various sizes and power ratings, including extremely forceful long-excursion drivers for massive acoustic power and dual electro-dynamic drivers for exceptional high-frequency reproduction.

The S1800S speaker is the series' high-performance 18" subwoofer, boasting a mind-blowing **700-Watts** of power handling.

- S1530** High-performance 3-way PA system
- **400-Watt** power handling
 - Electro-dynamic treble transducer
 - 6.5" cone midrange transducer
 - 15" long-excursion driver provides incredibly deep bass and acoustic power

- S1520** High-performance 2-way PA system
- **360-Watt** power handling
 - Electro-dynamic high frequency transducer
 - 15" long-excursion driver provides incredibly deep bass and acoustic power

- S1220** 2-way speaker / **S1220F** 2-way floor monitor
- **280-Watt** power handling
 - Electro-dynamic high frequency transducer
 - 12" long-excursion lower frequency transducer

- S1020** High-performance 2-way PA speaker system
- **240-Watt** power handling
 - Electro-dynamic high frequency transducer
 - 10" long-excursion lower frequency transducer

- S1800S**
- High-performance 18" subwoofer for PA applications
 - **700-Watt** peak power handling

All models feature hand-built cabinets with internal bracing, weatherproof metal grilles and weight-balanced handles.

EUROLIVE PROFESSIONAL SERIES
B1520 PRO, B1220 PRO & B1800X PRO

- High-power 12", 15" and 18" 2-way full-range loudspeakers plus matching subwoofer
- Up to **800-Watts** program (B1800X PRO: **1,600-Watts** program)
- Titanium HF driver (full-range systems only)
- BEHRINGER HF driver protection (full-range systems only)
- Long excursion woofer and high-power internal crossover (B1800X PRO only)
- Professional speaker connector (compatible with Neutrik Speakon connectors)
- Recessed, ergonomically shaped die-cast handles
- Rugged steel grill for speaker protection

EUROLIVE PERFORMER SERIES
E1520 & E1220

- Professional loudspeakers for use as PA speakers/floor monitors
- Extremely powerful long-excursion 15" and 12" drivers
- Ultra-wide frequency range and extremely high SPLs
- Professional speaker connector (compatible with Neutrik Speakon connectors)
- Proprietary horn design for ultra-wide sound dispersion
- Overload-protection circuitry for optimal HF driver protection
- Rugged steel grill for optimal speaker protection

Business / Installed speakers

MONITOR 1C-WH & MONITOR 1C-BK

These 2-way monitor loudspeakers are great for stereo and surround applications such as fixed installations, home recording studios as well as audio and video productions. Able to handle up to 100 watts of power, these monitors have a powerful 5.5" woofer with a light-weight cellulose cone, a high-resolution 0.5" tweeter plus a phase-optimized high-precision crossover for absolute phase linearity and auto-overload protection that resets automatically. The result: full-power, ultra-linear frequency response ranging from 60 Hz all the way up to 23 kHz.

RRP: \$79.99

RRP: \$79.99

- Multi-purpose 2-way studio monitors ideally suited for fixed installations, multimedia applications, home recording studios, audio/video productions and surround-sound systems
- High power handling capability (100 W / IEC268-5) with extremely low distortion
- Powerful 5.5" woofer with extremely light-weight cellulose cone and high-resolution 0.5" tweeter
- Ultra-linear frequency range from 60 Hz to 23 kHz
- Phase-optimized and high-precision crossover for absolute phase linearity

By making our own loudspeakers, we can ensure better reliability, excellent sonic quality... and keep our prices down.

BUSINESS ENVIRONMENT SPEAKER CE500A-BK

RRP: \$249.99

Looking for great sound and high tech appearance? The CE500A-BK is a multi-purpose, **80-Watt** active speaker for commercial indoor installations, multimedia applications, home recording studios, audio/video productions and perfect for use as a hot spot. A powerful woofer and a high-resolution tweeter deliver an exceptional sound quality and a wide dynamic range. In addition, the CE500A-BK offers an integrated limiter for ultimate system control and speaker protection.

- Multi-purpose, **80-Watt**, active speaker for commercial indoor installations (restaurants, shops, exhibitions), multimedia applications, home recording studios and audio/video productions
- Exceptional sound quality, wide dynamic range and ultra-linear frequency range from 60 Hz to 23 kHz
- Powerful 5.5" woofer with extremely light-weight cellulose cone and high-resolution 0.5" tweeter
- Integrated limiter for ultimate system control and speaker protection

BUSINESS ENVIRONMENT SPEAKERS CE1000P

RRP: \$299.99

- Multi-purpose, 2-way loudspeaker for commercial indoor installations such as restaurants, shops, exhibitions, worship houses, etc.
- High power capability (300 W @ 8 Ohm) for ultimate sound pressure levels
- Powerful 8" woofer and high-resolution driver provide an ultra-linear frequency response
- Specially designed waveguide horn for high intelligibility and equally distributed sound at any sound level
- Black wood enclosure with interchangeable and repaintable front to match venue interior (default color dark silver)

Power amps

EUROPOWER EP2500

RRP: \$699.99

- Professional-grade power amp for live applications
- 2 x **1,200-Watts** into 2Ω
- **2,400-Watts** in 4Ω bridged operation
- 2-channel, parallel or bridged mono operating modes
- Independent limiters for each channel
- Precise signal and clip LED indicators
- Selectable low-frequency filters
- Professional speaker connectors (compatible with Neutrik Speakon connectors) and "touch-proof" binding post loudspeaker outputs
- Balanced XLR and ¼" TRS inputs
- High-quality components and very rugged construction
- Independent DC and thermal overload protection on each channel

EUROPOWER EP1500

RRP: \$599.99

- Professional-grade power amp for live applications
- 2 x **700-Watts** into 2Ω
- **1,400-Watts** in 4Ω bridged operation
- 2-channel, parallel or bridged mono operating modes
- Independent limiters for each channel
- Precise signal and clip LED indicators
- Selectable low-frequency filters
- Professional speaker connectors (compatible with Neutrik Speakon connectors) and "touch-proof" binding post loudspeaker outputs
- Balanced XLR and ¼" TRS inputs
- High-quality components and very rugged construction
- Integrated limiter for ultimate system control and speaker protection

REFERENCE AMPLIFIER A500

RRP: \$399.99

- Ultra-linear power amplifier for recording studios, post-production, live sound and hi-fi application
- 2 x **230-Watts** into 4 Ohms
- **500-Watts** into 8 Ohms in bridged mono operation
- Servo-controlled design can drive virtually any passive speaker such as studio monitors, etc.
- Advanced convection-cooling for absolutely noise-free and stable operation (no fan)
- Precise level meter and clip indicators for accurate performance monitoring
- Input connections on balanced XLR, ¼" TRS and RCA connectors

Portable PA systems

EUROPORT EPA40 ultra-compact portable PA system

This is the ideal PA system for business meetings, tour guides, classroom and outdoor activities—portable and easy to handle. It features a 5" full-range loudspeaker with **40-Watts** of power, an integrated battery pack for 8 hours of continuous operation, Mic and Aux inputs as well as a high-quality dynamic microphone and accessories.

- Ultra-compact, portable **40-Watt** PA system
- 5" full-range loudspeaker with enormous power and incredible sonic performance in a super-light package
- Built-in battery with 8 hours life—recharges completely in just 4 hours
- Mic and Auxiliary inputs to connect to the included XM1800S microphone, your CD player and other line level sources
 - Includes microphone, carry strap and charger

RRP: \$199.99

EUROPORT EPA800 800-Watt portable PA system

In-line luggage style wheels make transport easy.

The EUROPORT EPA800 meets the high expectations of demanding businessmen, educators or musicians on the move, delivering unheard-of power and high-quality sound performance in a light-weight but impact-resistant housing. Included are two speakers with **800-Watts** of stereo power, featuring 10" woofers and 1.25" compression drivers, an effects processor with 100 presets and our popular FBQ Feedback Detection system.

The 8-channel mixer section consists of 4 mono and 2 stereo channels plus separate CD inputs. That means you can plug in up to 4 microphones plus A/V equipment like CD, DVD player or laptop computer audio and have complete control over individual levels.

The EPA800 has built-in luggage style carry wheels and an integrated storage compartment for microphones and cables. It unpacks in moments and is extremely simple to operate.

- Ultra-compact **800-Watt**, 8-channel portable PA system
- Enormous power, incredible sonic performance and super-light weight
 - Extremely powerful 10" woofers and 1.25" compression drivers for incredible sound reproduction
 - 24-bit stereo FX processor with 100 awesome presets
 - FBQ Feedback Detection system
 - 8-channel mixer section comprises 4 mono and 2 stereo channels plus separate CD inputs
 - Bass, midrange and treble tone controls for each channel
 - Effects level controls for each channel
 - Comes with a XM1800S microphone, a mic clip and 20' cables

AUDIO TECHNOLOGY for live sound & recording

If all acoustic spaces and music were created equal, there would be no need to further equalize, compress, limit or process their signals. But acoustics vary from room to room and the content of musical programming often requires interactive manipulation in order to suit a wide variety of tastes and to address environmental space issues.

At BEHRINGER, we build tools to make your music sound better! No other company offers such a wide array of high-quality audio enhancement products for musicians, from the beginner to the seasoned professional.

Dynamic processors

For a highly professional finishing touch, sound and recording engineers use dynamic processors to solve a vast array of issues. Compressors, limiters, gates and other useful tools allow you to smooth out volume inconsistencies, add warmth and punch to live instruments and recorded tracks, and reduce open microphone crosstalk problems.

Equalizers

Nightclubs, concert halls, churches and other live music environments benefit greatly from the use of equalizers for reducing feedback and taming frequency anomalies that would otherwise ruin a performance. High-frequency sounds tend to bounce off hard surfaces and get absorbed by others, significantly degrading the quality of the original signal. Bass response can be mushy, or on the other end of the spectrum, become overwhelmingly harsh, depending on the placement of the loudspeakers and the shape and contents of the room. The critical midrange zone, where the vocals and solo instruments live can get completely lost in the mix. A high quality graphic EQ can help solve these and a host of other acoustic problems.

Digital effects processors

One sure way to give your sound the professional touch is to incorporate effects, such as reverbs, delays, or compressors. These devices help create an ambience or atmosphere that lends warmth to live and recorded performances. In the old days that meant hauling tremendous racks of sophisticated and delicate electronics and hoping for the best. Today's digital effects processors are designed to handle the rigors of the road and provide consistently high-quality output. Technological advances have also made them affordable, even to entry-level performers.

Sound enhancement processors

Specialized enhancement processors can give your music added dimensionality, improving the clarity and bottom end of your sound system. Filters are employed to compensate for phasing anomalies and add density to low frequency content. These processors provide the ultimate sound improvement tool for home recording studios, DJ systems, keyboard racks, web-casting, plus 5.1 and hi-fi setups.

Crossovers

You wouldn't want your speaker system's high frequencies coming out of the woofer, and you definitely wouldn't want those all-important lows bleeding into the horn! That's why you need a crossover. Whether you're a sound engineer, concert hall operator or a movie theater sound tech, crossovers help you deliver a breathtaking spectrum of sound that accurately meets your most painstaking specifications.

Microphone preamplifiers

Like any guitar, bass, or keyboard, a microphone is a musical instrument whose amplification makes an immeasurable impact on its tone. Microphone preamps give your favorite mic's signal the powerful push it needs to be heard and recorded, and by taking the time to select the one that's right for you, your tone will take on just the right amount of warmth, transparency and noise-free fidelity.

Headphone and monitoring amplifiers

When the whole band is at work in the studio, no one wants to be shut out of hearing the mix because of a shortage of headphone outputs. That's what's so great about headphone and monitoring amplifiers—everyone can listen together and weigh in on the mix! Whether you're dealing with a fab foursome or an awesome octet, these brilliant boxes keep everyone's head in the game.

Audio toolkit

In the topsy-turvy world of recording and live performance, it pays to expect the unexpected. You can never go wrong by stocking up on audio tools like cable testers, feedback eliminators, noise killers, direct input boxes, phantom power supplies and rack lights. Having these invaluable tools at your disposal can make the difference between a smooth, hassle-free performance and a trouble-ridden disaster!

Dynamic processors

MULTICOM PRO-XL MDX4600

RRP: \$229.99

- Interactive Reference-Class 4-Channel Expander/Gate/Compressor/ Peak Limiter with Dynamic Enhancer and Low Contour Filter
- Switchable IKA (Interactive Knee Adaptation) program-adaptive compression circuitry combines the advantages of hard-knee and soft-knee characteristics
- IRC (Interactive Ratio Control) expander/gate circuitry for virtually inaudible noise suppression
- Dynamic enhancer for brilliant, lively audio
- Switchable low contour filter prevents "pumping" due to low-frequency dominated compression

COMPOSER PRO-XL MDX2600

RRP: \$199.99

- Interactive Reference-Class 2-Channel Expander/Gate/Compressor/ Peak Limiter with Integrated De-Esser, Dynamic Enhancer, Tube Simulation and Low Contour Filter
- Switchable IKA (Interactive Knee Adaptation) program-adaptive compression circuitry combines the advantages of hard-knee and soft-knee characteristics
- IRC (Interactive Ratio Control) expander/gate circuitry for virtually inaudible noise suppression
- Dynamic enhancer for brilliant, lively audio
- Switchable low contour filter prevents "pumping" due to low-frequency dominated compression

AUTOCOM PRO-XL MDX1600

RRP: \$179.99

- Interactive Reference-Class 2-Channel Expander/Gate/Compressor/ Peak Limiter with Integrated Dynamic Enhancer, De-Esser and Low Contour Filter
- Switchable IKA (Interactive Knee Adaptation) program-adaptive compression circuitry combines the advantages of hard-knee and soft-knee characteristics
- IRC (Interactive Ratio Control) expander/gate circuitry for virtually inaudible noise suppression
- Dynamic enhancer for brilliant, lively audio
- Switchable low contour filter prevents "pumping" due to low-frequency dominated compression

BEHRINGER Germany
Research and
Development

MINICOM COM800

RRP: \$79.99

- Ultra-compact 9.5" stereo modeling compressor for studio and stage applications
- 16 awesome preset models for the most typical compression applications (vocal, drums, guitar, keyboard, etc.)
- Dedicated Compressor Modeling control with LEDs indicating the selected dynamics program
- Integrated Enhancer for brilliant, lively audio even with heavy compression
- IKA (Interactive Knee Adaptation) program-adaptive compression circuitry combines the advantages of hard and soft knee characteristics

TUBE COMPOSER T1952

RRP: \$299.99

- Interactive tube-based dynamic processor with selected 12AX7 tubes
- Patented** ULTRATUBE circuitry adds desired amount of warmth without introducing additional noise
- Five dynamic processing functions: compressor/limiter/gate/expander, peak limiter
- IKA program-adaptive compression circuitry, IRC expander/gate circuitry, IGC peak limiting circuitry
- Switchable Auto function for automatic attack and release time adjustment
- Selectable "interactive knee" or "hard knee" compression modes

MULTIGATE PRO XR4400

RRP: \$199.99

- Four separate expander/gate channels
- UTR (Ultra Transient Response) selectable ultra-fast gate
- IRC (Interactive Ratio Control) selectable ultra-smooth expander
- Extremely short attack time (<10 µsec.)
- Parametric side chain filter with monitor function
- Independent hold and release controls for flexible envelope shaping
- Accurate "traffic light" display for easy threshold setting

ULTRAMIZER PRO DSP1424P*

RRP: \$199.99

- Ultra high-performance 24-bit digital multiband loudness maximizer/sound program enhancer
- Doubles the loudness of your recordings and sound reinforcement systems without any distortion
- Ultimate mastering machine maximizes signal energy with absolutely "inaudible" compression
- Variable band-split compression eliminates virtually any gain intermodulation effects
- "Intelligent" digital limiter
- Built-in denoiser and exciter
- 3D stereo surround processor
- Super bass enhancer
- Free ULTRAMIZER software allows total remote control via PC

* Not available in Europe

Equalizers and multi-processors

ULTRACURVE PRO DEQ2496

RRP: \$499.99

- Ultra high-precision digital 24-bit/96 kHz processor for all EQ, RTA and dynamic applications
- 4 concurrently selectable EQ modules (31-band graphic EQ, 10-band parametric EQ, FEEDBACK DESTROYER plus three Dynamic EQs per stereo channel)
- Flexible Compressor/Expander function with Peak Limiter, additional Stereo Imager and Stereo Delay
- Unique VPQ (Virtual Paragrophic EQ) option allows parametric control of graphic EQs
- Ultra high-resolution 61-band real-time FFT Analyzer with auto EQ function
- Separate RTA mic/line input, AES/EBU and S/PDIF inputs and outputs, wordclock input and MIDI connections

ULTRAGRAPH PRO FBQ6200

RRP: \$349.99

- Professional 31-band stereo Graphic Equalizer for both live and studio applications
- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies and can also be used as Audio Analyzer
- Dedicated limiters with gain reduction meters for each channel
- Pink noise generator provides test signals for equalizing your sound system to any room acoustics
- Mono subwoofer output with dedicated level control and adjustable crossover frequency
- High-quality illuminated 45-mm faders

ULTRAGRAPH PRO FBQ1502

RRP: \$149.99

- Professional 15-band stereo graphic equalizer
- FBQ Feedback Detection system instantly reveals critical frequencies and can also be used as Audio Analyzer
- Dedicated mono subwoofer output with adjustable crossover frequency
- Additional low cut filter removes unwanted frequencies, e.g. floor rumble
- Ultra-low noise audio operational amplifiers offer outstanding sound performance
- Servo-balanced inputs and outputs with ¼" TRS and gold-plated XLR connectors

ULTRAGRAPH DIGITAL DEQ1024

RRP: \$299.99

- Ultra high-resolution 24-bit/96 kHz processor for all EQ, RTA and dynamic applications, especially for PA and audiophile mastering
- Unique TRUE CURVE Function—what you see on the faders is what you get as frequency response
- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies and can also be used as Audio Analyzer
- Automatic FEEDBACK DESTROYER module plus feedback indication via fader LEDs
- "Inaudible" Noise Gate/Peak Limiter function plus amazing Stereo Imager
- Digital AES/EBU and S/PDIF interface and selectable sample rates (44.1, 48, 96 kHz)

ULTRAGRAPH PRO FBQ3102

RRP: \$249.99

- Professional 31-band stereo graphic equalizer
- FBQ Feedback Detection system instantly reveals critical frequencies and can also be used as Audio Analyzer
- Dedicated mono subwoofer output with adjustable crossover frequency
- Additional low cut filter removes unwanted frequencies, e.g. floor rumble
- Ultra-low noise audio operational amplifiers offer outstanding sound performance
- Servo-balanced inputs and outputs with ¼" TRS and gold-plated XLR connectors

MINIFBQ FBQ800

RRP: \$79.99

- Ultra-compact 9.5" graphic equalizer for studio and stage applications
- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies and can also be used as Audio Analyzer
- Additional low cut filter removes unwanted frequencies, e.g. floor rumble
- Accurate 6-segment LED Input/Output meters and Level control for precise level indication
- Ultra-low noise audio operational amplifiers offer outstanding sound performance

24-bit digital effects processors

V-VERB PRO REV2496*

RRP: \$299.99

- Reference-class reverb modeling processor with high-quality 24-bit/96 kHz A/D and D/A converters
- Full 4-channel operation at up to 96 kHz, providing two separate effects processors in one unit
- 8 high-end reverb algorithms, modeled after world-class reverb processors
- Additional high-quality modulation effects from X-over Delay to Chorus/Flanger plus stereo Compressor
- Full-featured digital interface with AES/EBU In/Out, optical S/PDIF In/Out, Wordclock In and MIDI function

* Not available in Europe

VIRTUALIZER PRO DSP2024P

RRP: \$199.99

- High-performance 24-bit multi-engine effects processor
- 71 breathtaking new algorithms, most in true stereo
- Wave-adaptive VIRTUAL ROOM reverb algorithms for ultra-natural reverb and delay
- Awesome modulation, dynamic, psycho-acoustic and EQ algorithms plus innovative amp simulation, distortion and special effects
- 11 effect combinations with selectable serial/parallel routing
- Up to 7 adjustable parameters plus high and low EQ per effect

MINIFEX FEX800

RRP: \$99.99

- Ultra-compact 9.5" stereo multi-effects processor for studio and stage applications
- 16 awesome FX presets in 24-bit/48 kHz resolution including reverb, delay, chorus, flanger, phaser, rotary speaker, pitch shifter and multi-effects
- Intuitive FX Preset control with LEDs indicating the selected program
- Versatile Edit and Tap/Select functions to control a wide range of FX parameters
- Stereo Input Level control with accurate 6-segment LED Input meter for precise level indication

Sound enhancement processors

SONIC ULTRAMIZER SU9920

RRP: \$159.99

The SONIC ULTRAMIZER SU9920 stereo sound enhancement processor is the ultimate gear for home recording studios, DJ systems, keyboard racks, web-casting plus 5.1 and hi-fi setups. It dramatically improves any system's sound quality, adding definition and dimension through harmonic enhancement and phase compensation by using the Low contour and Process controls.

- Dramatically improves your sound by adding dimension and depth
- Produces natural brightness through harmonic enhancement and tighter bass with increased punch through phase compensation
- Broadcasting and webcasting: adds loudness and "live presence" even on small car or computer speakers
- 5.1 and hi-fi setups: DVDs become stunningly lifelike and the spatial dimension of your sound system increases dramatically
- Accurate 5-segment LED level meters for optimum performance
- Dedicated Low contour and Process controls per channel for ultimate sound enhancement
- Servo-balanced inputs and outputs with ¼" TRS and gold-plated XLR connectors

SONIC EXCITER SX3040

RRP: \$199.99

The SONIC EXCITER SX3040 stereo sound enhancement processor is great for providing increased clarity and punchy bottom end to your sound system. It improves the natural brightness through harmonic enhancement and adds density to the low frequencies through phase compensation. Dedicated Drive, Tune and Mix controls for each channel enable fast and easy setup as well as ultimate sound improvement.

- Dramatically improves your sound by adding clarity and bottom end
- Produces natural brightness through harmonic enhancement and tighter bass with increased punch through phase compensation
- Professional and home recording studios: brings out the full sound spectrum of your tracks, mixdown and mastering
- PA, nightclub and DJ systems: improves the performance of any sound system by adding sparkling high end and super-tight bass without the need for additional speakers or amps
- Churches and houses of worship: dramatically increases voice intelligibility and your music gains presence
- Dedicated Tune, Harmonics and Mix controls per channel on the Sonic Exciter section

Crossovers and loudspeaker speaker management systems

SUPER-X PRO CX2310

RRP: \$199.99

- 2-way stereo/3-way mono crossover
- 24 dB/octave, state-variable Linkwitz-Riley filters for precise frequency separation
- Absolutely flat summed amplitude response, zero phase difference
- Polarity reverse switch per output
- Adjustable time delay for phase alignment
- Separate subwoofer output with independent frequency control

SUPER-X PRO CX3400

RRP: \$249.99

- 3-way stereo/4-way mono crossover
- 24 dB/octave, state-variable Linkwitz-Riley filters for precise frequency separation
- Absolutely flat summed amplitude response, zero phase difference
- Individual limiter (CX3400 only) and polarity reverse switch per output
- Adjustable time delay for phase alignment and "Low Sum" function for subwoofer operation
- Separate subwoofer output

ULTRADRIVE PRO DCX2496

RRP: \$499.99

- Ultra high-precision digital 24-bit/96 kHz loudspeaker management system with RS-232 and RS-485 interfaces
- Individual crossover filter types with selectable roll-off characteristics from 6 to 48 dB/octave, four different mono/stereo output operating modes
- "Zero"-attack limiters on all output channels for speaker protection
- Precise dynamic EQs and extremely musical parametric EQs, selectable for all inputs and outputs
- Adjustable delays for all 3 analog inputs (one switchable for digital AES/EBU input) and 6 analog outputs
- Integrated sample rate converter(32 to 96 kHz) for easy connection of external digital sources

Microphone preamplifiers

ULTRAGAIN PRO MIC2200

RRP: \$199.99

- High-precision vacuum tube microphone/line preamplifier
- Discrete mic/line input stages with soft mute +48 V phantom power
- Ultra-wide bandwidth from 10 Hz to 200 kHz for open sound
- Built-in high-quality vacuum tube for outstanding, ultra-musical tube sound
- Two fully parametric EQs with adjustable center frequency, bandwidth and level
- Fully tunable and switchable 12 dB high-pass filter
- Switchable polarity reverse to correct phase problems

MINIMIC MIC800

RRP: \$79.99

- Ultra-compact 9.5" microphone modeling preamp for studio and stage applications
- High-end preamplifier for all microphone, instrument and line-level sources. Perfectly complements studio-grade condenser mics
- Ultra-flexible Preamp Modeling allows you to quickly optimize your recordings
- Choose between 16 preamp voicings designed for electric and acoustic guitars, keyboards, bass guitars, drums, vocals, etc.
- Authentic VTC Tube Modeling technology creates the warmth of vacuum tubes

TUBE ULTRAGAIN T1953

RRP: \$299.99

- High-precision mic/line preamplifier with selected 12AX7 tubes
- Discrete mic/line input stages with soft mute +48 V phantom power
- Patented** ULTRATUBE circuitry (UTC) adds desired amount of warmth without introducing additional noise
- Extremely wide bandwidth for open sound
- Fully tunable and switchable 12 dB high-pass filter
- Polarity reverse switch per channel
- Huge back-lit analog VU meters and stylish "retro" design

TUBE ULTRAGAIN MIC200 & MIC100

- High-end tube mic/line preamplifier for studio, live and hard disk recording applications
- Hand-selected 12AX7 vacuum tube with UTC technology
- The ultimate sound-enhancing tool for virtually any sound source
- 16 preamp voicing models designed for electric and acoustic guitars, keyboards, bass guitars, drums, vocals and more (MIC200 only)
- Perfectly complements studio-grade condenser mics
- Usage as a high-end DI-box
- +48 V phantom power, polarity reverse switch and 20 dB pad

Headphone amplifiers

POWERPLAY PRO-8 HA8000

RRP: \$299.99

- Professional multi-purpose headphone amplifier system for stage and studio applications
- Eight totally independent stereo high-power amplifier sections in one rack space
- Two stereo main inputs for two independent mixes, accessible from all eight channels
- Eight independent direct inputs provide up to eight individual stereo mixes
- High sound quality with virtually all types of headphones even at maximum volume
- Mono/stereo switch per channel for more flexibility

POWERPLAY PRO-XL HA4700

RRP: \$249.99

- Professional, multi-purpose headphone amplifier system
- High sound quality with virtually all types of headphones >8 Ohms even at maximum volume
- Four independent high-power amplifier sections provide up to four stereo mixes with individual balancing
- Each input/aux section can be separately set
- Stereo aux input for each channel
- Multi-functional ST./2-CH switch on each channel allows for either stereo playback or double mono operation
- Ultra-musical high and low EQ per channel for perfect sound adaptation
- Left & right mute switches for each channel allow two different mixes in mono mode

MICROAMP HA400

RRP: \$39.99

- 4-channel stereo headphone amplifier for use with all types of headphones

- Four individual high-power stereo amplifiers
- High sound quality even at maximum volume
- Output level control for each channel
- Ultra-low noise 4580 operational amplifiers for outstanding audio performance
- DC 12-Volt adapter included
- High-quality components and exceptionally rugged construction ensure long life

MINIAMP AMP800

RRP: \$79.99

- Ultra-compact 9.5" headphone amplifier system for studio and stage applications
- 4 totally independent stereo high-power amplifier sections
- High sound quality with virtually all types of headphones even at maximum volume
- Phones Level control plus accurate 6-segment LED output meter per channel for easy level monitoring
- 2 balanced stereo main inputs with independent Level and Balance controls for individual mixes, selectable for all 4 headphone amplifiers

Audio toolkit: practical solutions to problems you encounter every day

Musicians and sound engineers run into a wide range of problems from gig to gig. When an unanticipated problem rears its ugly head, you need to be ready to take action, and fast. Whether you want to stop feedback dead in its tracks, connect an

accordionist to the main console or just light up your rack so you can work in a dimly lit room, you will find something you need on this page. Take control of your gig and start building a truly professional audio toolkit today!

FEEDBACK DESTROYER PRO FBQ2496

RRP: \$299.99

- 24-bit/96 kHz feedback suppressor/parametric EQ
- Locates and destroys up to 20 critical frequencies per channel
- Up to 40 fully parametric filters
- Ultra-narrow notch-filters (up to 1/60th octave)
- Open MIDI architecture for future software updates
- Balanced inputs and servo-balanced outputs with XLR and ¼" TRS connectors

SHARK DSP110

- Automatic FEEDBACK DESTROYER and multifunction signal processor
- Discrete ULN² mic/line input stage with gain control and +48 V phantom power
- Delay line with up to 2.5 seconds of delay, adjustable in meters, feet and msec.
- Noise gate with automatic and manual parameter adjustments
- Super-musical compressor with variable density
- Up to 5 SHARK processors are rack-mountable in just two units of rack space (the rack-mounting kit is included with the purchase of 5 SHARK processors)

RRP: \$149.99

ULTRA-DI PRO DI4000

RRP: \$149.99

- Professional 4-channel active direct injection box
- Converts unbalanced line inputs to balanced outputs
- Extremely linear frequency response from 10 Hz to 50 kHz
- +20 dB gain switch for preamplification of low-level signals
- Switchable attenuation allows maximum input of +50 dB
- S/N ratio –95 dB, THD <0.005%
- Phase reverse switch for instant correction of phase problems
- BEHRINGER OT-1 output transformer for full galvanic insulation

FEEDBACK DESTROYER PRO DSP1124P*

RRP: \$199.99

- High-performance 24-bit dual-engine feedback suppressor / 2 x 12-band parametric EQ
- Two software engines allow independent or coupled functions on left and right channels
- Single-Shot mode automatically searches and attenuates feedback frequencies and locks the filter until manually reset
- Auto mode continuously monitors the mix, resetting filters automatically as required
- Manual mode allows individual setting of up to 2 x 12 fully parametric filters with frequency, bandwidth and gain adjustment

* Not available in Europe

MINIMON MON800

RRP: \$79.99

- Ultra-compact 9.5" monitor matrix mixer for studio and stage
- Dedicated input section with 4 selectable and mixable stereo inputs
- Accurate 6-segment LED main stereo output meters for precise level indication
- High-power phones output with dedicated Level control
- 3 selectable stereo speaker outputs with separate Level controls
- Professional Mute, Dim and Mono functions
- Talkback section with internal microphone and comprehensive routing options

ULTRAMATCH PRO SRC2496

RRP: \$299.99

- Ultra high-resolution 24-bit/96 kHz A/D-D/A & sample rate converter
- Format conversion between AES/EBU and S/PDIF (coaxial or optical)
- Converts 31 kHz - 100 kHz input into 32 kHz, 44.1 kHz, 48 kHz, 88.2 kHz or 96 kHz output
- Allows parallel A/D and D/A conversion at identical sample rate
- All three outputs (XLR, RCA, optical) simultaneously operational (splitter)
- Universal sample rate synchronization via wordclock or digital input
- Allows direct manipulation or removal of emphasis bits
- Removes jitter and corrects incorrect sample rates

ULTRA-DI PRO DI800

RRP: \$149.99

- Professional, multi-purpose 8-channel direct injection box
- Converts unbalanced line inputs into balanced outputs
- Optional mains or phantom powered operation
- Ultra-flat frequency response due to servo-balanced operation
- Allows direct connection to speaker outputs with up to **3,000-Watts**
- Ultra-low noise operational amplifiers for outstanding audio performance
- +20 dB gain switch for pre-amplification of low-level signals
- Attenuation switch for input levels up to +40 dBu

MICROPOWER PS400, MICROPHONO PP400 & MICROMON MA400

MICROPOWER PS400

- Ultra-compact phantom power supply
- Selectable +12/+48 V power supply
- Ultra-low noise audio performance
- DC 12-Volt adapter included

RRP: \$39.99

MICROPHONO PP400

- Ultra-compact phono preamp
- Converts your phono signal to a line level signal
- Ultra-low noise audio operational amplifiers
- DC 12-Volt adapter included

RRP: \$39.99

MICROMON MA400

- Ultra-compact monitor headphone amplifier
- Personal "more me" mixer—mix a mic and a monitor signal and hear them via headphones
- Flexible Mic In and Mic Through XLR connectors with Ground Lift switch
- DC 12-Volt adapter included

RRP: \$39.99

CABLE TESTER CT100

- Three modes: cable test mode, installed cable test mode and test tone mode
- Accepts XLR, mono and TRS phone (¼", ⅛", TT), RCA and MIDI connectors
- Continuity check
- Intermittent detect
- Phantom power detect
- Grounded shield detect
- Test tone generation (1 kHz and 440 Hz)
- Battery operation (requires two AA alkaline batteries)

RRP: \$59.99

MICROHD HD400

- Removes AC hum and noise—fast, easy and reliable
- Breaks ground loops safely, while keeping high sound quality
- Automatically converts unbalanced to balanced signals without any signal loss
- Two ¼" TRS inputs and outputs for 2 mono or 1 stereo signal
- High-quality components and exceptionally rugged construction ensure long life

RRP: \$39.99

ULTRAPATCH PRO PX1000 & PX3000

RRP: \$99.99

PX3000

RRP: \$69.99

PX1000

- Professional and multi-functional 48-point patchbays for studio and stage applications with high-quality phone jacks
- PX3000: 3 modes, easily selectable per ch. via topside switches
- PX1000: Each channel can be aligned in 5 different modes, giving you superior flexibility

Recording

Complete podcasting systems

PODCASTUDIO USB

Go "on-the-air" straight out of the box with this fantastic PODCASTUDIO recording package. It comes with a studio-grade USB audio interface as well as comprehensive DAW and podcasting software.

The package also features a professional 5-input mixer with 2-band "British" EQ, high-quality headphones and a dynamic broadcast-style microphone plus cable.

- Everything you need for professional podcasting, music production and digital home recording
- 2 In / 2 Out USB audio interface with plug-and-play for Windows XP and Mac OS X operating systems
- 5-input 2-bus mixer
- Dynamic broadcast-style microphone
- Studio headphones
- Table microphone stand, XLR microphone cable and 2 stereo RCA cables
- Digital Audio Workstation editing and recording software included

RRP: \$199.99

- Podcasting software for PCs and Mac computers
- Complete instructions including illustrated quick-start guide "How to Podcast"

PODCASTUDIO FireWire

- Everything you need for professional podcasting, music production and digital home recording
- Get a full recording studio "out of the box" including FireWire interface, mixer, microphone, headphones, professional music software and cables
- High-resolution 24-bit/96 kHz, 2 In / 2 Out FireWire audio interface for Windows XP and Mac OS X operating systems
- Professional 8-input 2-bus mixer with premium mic preamps and 3-band EQs
- Professional large-diaphragm studio condenser microphone
- High-performance studio headphones with ultra-wide frequency response
- Table microphone stand, microphone windscreen and cable, four ¼" jack cables and two FireWire cables
- Powerful DAW software (Ableton Live Lite 4 BEHRINGER Edition, Kristal Audio Engine, Audacity)

RRP: \$399.99

- Complete instructions including illustrated quick-start guide "How to Podcast"
- High-quality components and exceptionally rugged construction ensure long life

B-CONTROL BCF2000-WH

RRP: \$399.99

Open that DAW! The attractive new BCF2000-WH puts you in real control of your own virtual studio. This ergonomically-designed console provides 8 ultra-precise 100-mm motorized faders and just a handful of high resolution rotary controls,

allowing you to fly your audio software “hands-on” via any USB or MIDI port.

- Unique, total recall cascadable desktop MIDI controller with analog feel and an intuitive user interface
- 8 ultra-precise 100-mm motorized faders for ultimate control of virtual mixers, organ-drawbars (inverse mode) or virtual synths and samplers
- 4 virtual groups with 8 dual-mode, high-resolution encoders that feature LED rings and an additional push function
- 16 + 4 illuminated buttons freely assignable to all types of MIDI functions from note on/off, control change and program change to MMC and system exclusive data
- All panel elements are freely assignable—manually or via

Recording

B-CONTROL FADER BCF2000

- Unique, total recall cascadable desktop USB/MIDI controller
- 8 ultra-precise 100-mm motorized faders for ultimate control of virtual mixers, organ drawbars (inverse mode) or virtual synths and samplers
- 8 high-resolution encoders with LED rings for ultimate control over virtual mixers, synths, samplers and effects processors
- 4 virtual groups with 8 dual-mode, high-resolution encoders that feature LED rings and an additional push function
- Easy connection to any computer/expander etc. using standard MIDI In/Out connectors or USB
- Additional drivers and editor/librarian software available for free download on our website

RRP: \$399.99

B-CONTROL ROTARY BCR2000

- Total recall cascadable desktop MIDI controller with analog feel and user-friendly interface
- 24 high-resolution encoders with LED rings for ultimate control over virtual mixers, synths, samplers and effects processors
- 4 virtual groups with 8 dual-mode, high -resolution encoders that feature LED rings and an additional push function
- 16 + 4 illuminated buttons freely assignable to all types of MIDI functions from note on/off, control change and program change to MMC and system exclusive data
- All panel elements freely assignable

RRP: \$299.99

U-CONTROL UMX61, UMX49 & UMX25

UMX25
RRP: \$179.99

UMX49
RRP: \$229.99

UMX61
RRP: \$259.99

- USB/MIDI controller keyboards with USB/audio interface, 50 software instruments and Ableton Live Lite 4 BEHRINGER Edition
 - Velocity-sensitive USB/MIDI keyboard featuring 61 (UMX61), 49 (UMX49) or 25 (UMX25) full-size keys and unbeatable programming versatility, real-time control and playability
- USB/audio interface to connect your instruments and mixer, etc. to your computer for recording and playback
 - Plug and play with Mac OS X and Windows XP operating systems
 - 8 real-time rotary controls plus 10 assignable switches
 - Freely assign MIDI control changes to the modulation wheel, volume fader and pedal port for ultimate flexibility
 - Full 128 tone range via the octave shift function with multi-purpose LED status indication
- Separate MIDI Out allows controlling hardware samplers, synths and other MIDI-compatible equipment

user-friendly learn mode

- Additional multi-function foot switch and expression pedal connectors can be used to address additional MIDI data
- 32 user presets each with 4 encoder groups
- Configurable MIDI and USB modes for ultra-flexible system integration

B-CONTROL NANO BCN44*

- 4 freely assignable push encoders, each with status LED
- 4 freely assignable buttons with dual functions
- All panel elements freely assignable: Manually or via user-friendly learn mode
- Multi-function 4-digit LED display with real-time parameter indication
- Easy connection to any computer/expander etc. using standard MIDI In/Out connectors
- MIDI Input with merge function for cascading multiple control units
- 99 user-programmable presets
- Special “Learn Mode” for MIDI control data

RRP: \$99.99

U-CONTROL UMA25S

RRP: \$259.99

The U-CONTROL Series has a new family member—the UMA25S MIDI controller bundle which incorporates a fully-fledged USB audio interface. This portable USB keyboard controller has 25 velocity-sensitive keys for the slickest glissandos and snappiest arpeggios. 8 rotary knobs, 8 buttons, 2 wheels, 1 slider and 2 pedal jacks are all there to give you more control, and the 3-digit display always lets you know where you are.

And we couldn’t call it a bundle if we didn’t include the powerful DAW software Ableton Live Lite 4 BEHRINGER Edition and a plethora of software widgets, too.

The included strap allows you jam and jump on stage.

- Stage performer and producer keyboard featuring 25 velocity-sensitive, full-size plus half-action keys
- Built-in USB audio interface to connect your instruments and mixer to your computer for recording and playback
- Kristal Audio Engine DAW, Audacity audio editor and over 100 virtual instruments plus more than 50 effect plug-ins included
- Powerful DAW software Ableton Live Lite 4 BEHRINGER Edition included
- 8 user presets and 21 assignable controllers: 8 knobs, 8 buttons (with transport-mode option), 2 wheels, 1 slider, 2 pedal jacks
- Advanced control features: drawbar mode, drum triggering, incremental value step, parameter range limiting, octave +/-
- Soft gig bag, high-quality headset and guitar strap for direct live jamming on stage included
- Plug and play with Mac OS X and Windows XP operating systems; additional ASIO low-latency driver included for XP

F-CONTROL AUDIO FCA202

RRP: \$149.99

- Ultra low-latency 2 in/2 out 24-bit/96 kHz FireWire audio interface
- High-resolution 24-bit/96 kHz converters for high-end audio quality
- Ultra low-latency drivers for Windows XP included
- Stereo headphone output with dedicated level control
- Dual high-bandwidth FireWire connectors for absolute flexibility
- Powered via FireWire bus or included power adapter for use with 4-pin FireWire PCs

U-CONTROL UCA202

RRP: \$59.99

- PC or Mac computer—no setup or drivers required. Free audio recording and editing software downloadable at www.behringer.com
- Stereo headphone output with dedicated level control lets you monitor both input and output
- Additional S/PDIF optical output for direct digital connectivity

ULTRAGAIN PRO-8 DIGITAL ADA8000

RRP: \$449.99

- Ultra high-quality 8-channel 24-bit A/D & D/A converter for virtually any digital recording/mixing environment
- 8 state-of-the-art, studio-grade IMP “Invisible” Mic Preamps
- Phantom power on all mic inputs
- Processes 44.1 and 48 kHz sample rates
- External sample rate synchronization via wordclock or ADAT input
- Optical ADAT IN/OUT interface
- All mic/line inputs are routed to the ADAT output

TRUTH studio monitors

TRUTH B3031A & B3030A ACTIVE

B3030A
RRP: \$599.99

B3031A
RRP: \$699.99

The TRUTH is in the Ribbon and the Kevlar. These next generation B3031A and B3030A active reference monitors are truly state-of-the-art. Featuring a 2" ribbon transducer for ultra-high resolution combined with a special woofer with Kevlar fiber cone for accurate low-end response, these magnetically-shielded nearfield monitors are manually calibrated for an ultra-flat frequency response and come with an individual test diagram. How do they sound? Simply compare them to the most expensive monitors you can find—and you’ll hear the TRUTH!

- Ultra-linear frequency response from 50 Hz to 21 kHz with individual frequency response charts
- Built-in **150 (75)- and 75 (35)-Watt** power amplifiers in the B3031A (B3030A) with enormous power reserve
- High resolution, 2" velocity ribbon transducer for ultimate sound reproduction
- Long-throw 8.75" woofer with special Kevlar fiber diaphragm and deformation-resistant aluminum die-cast chassis (B3031A)
- Long-throw 6.75" woofer with special Kevlar diaphragm and deformation-resistant aluminum die-cast chassis (B3030A)
- Controlled dispersion characteristics and extremely large “sweet spot” owing to the unique BEHRINGER wave guide technology

TRUTH B2092A active subwoofer

- High-power 360-Watt amplifier delivers extreme dynamic range, with linear bass reproduction down to 32 Hz
- 2 long-excursion 8" woofers mounted in a sturdy aluminum die-cast enclosure
- Dedicated Left, Right and Center XLR inputs and outputs for stereo and surround applications
- Incredible low-frequency enhancement for BEHRINGER TRUTH studio monitors or any other professional monitoring system
- Innovative band-pass filter enclosure design yields excellent dynamic response and linearity

RRP: \$499.99

MONITOR SPEAKERS MS16

RRP: \$139.99

- Compact stereo speaker system ideally suited for home studios, multimedia applications, keyboard and vocal monitoring, and more
- Powerful 4" woofers and high-resolution tweeters powered by two **8-Watt** amplifiers
- Dedicated volume, bass and treble controls for more flexibility
- Stereo RCA inputs for sound cards, keyboards, etc. that can be used simultaneously with second stereo source (e.g. CD/MD player) through 1/8" TRS stereo input

TRUTH B2031A & B2030A ACTIVE

B2031A RRP: \$599.99

B2030A RRP: \$499.99

- High-resolution, active 2-way **150- and 75-Watt** (B2031A)/**75- and 35-Watt** (B2030A) studio monitor
- Ultra-linear frequency response from 50 Hz to 21 kHz with individual frequency diagrams
- Built-in power amps with enormous power reserve
- Ultra high-resolution ferrofluid-cooled tweeter
- Long-throw 8.75" (B2031A)/6.75" (B2030A) woofer with special polypropylene diaphragm
- Adjustable to different acoustic conditions and subwoofer operation
- Magnetic shielding
- Delivered as “matched pairs” with individual frequency response charts

TRUTH B2031P & B2030P PASSIVE

B2031P RRP: \$299.99

B2030P RRP: \$249.99

- High-resolution, passive 2-way **150-Watt** (B2031P)/**100-Watt** (B2030P) studio monitor
- Ultra-linear frequency response from 55 Hz (B2031P)/75 Hz (B2030P) to 21 kHz
- Extremely high-resolution, ferrofluid-cooled tweeter
- Long-throw 8.75" (B2031P)/6.75" (B2030P) woofer with special polypropylene diaphragm
- Phase-optimized, low-distortion frequency crossover for accurate reproduction
- Magnetic shielding
- Delivered as “matched pairs”

DIGITAL MONITOR SPEAKERS MS40 & MS20

MS40 RRP: \$299.99

MS20 RRP: \$199.99

- 2-way active studio monitors ideally suited for computer studios, audio and multimedia workstations and keyboard monitoring
- Built-in amplifiers with immense headroom
- Powerful woofers and high-resolution tweeters provide an ultra-linear frequency response
- Ultra-high resolution 24-bit/192 kHz D/A converters for an incredible dynamic range
- Optical and coaxial inputs to directly connect digital audio sources by S/PDIF interface

DJ products

PRO MIXER VMX1000

- Professional 7-channel ultra-low noise analog DJ mixer with state-of-the-art phono preamps
- Intelligent dual auto-BPM counters
- Super-smooth, long-life ULTRAGLIDE faders (up to 500,000 cycles)
- Awesome XPQ stereo surround effect
- VCA-controlled crossfader for utmost reliability
- Adjustable crossfader curve for all mixing styles
- 3-band kill EQ (-32 dB) with EQ on/off switch on stereo channels, gain control and precise level meters per channel
- Monitor function with PFL/main balance control and split option
- Subwoofer output with adjustable x-over frequency and level control

PRO MIXER VMX100

- 2 dual-input stereo channels
 - Intelligent dual auto-BPM counter with time and beat sync display
 - Gain and 2-band kill EQ (-32 dB) per channel
 - Super-smooth, long-life faders
 - Switchable crossfader curve control
- 1 microphone input
 - Extremely precise assignable level meter with peak hold function
- Master and tape outputs

RRP: \$129.99

DJ mixers

DDM4000 DIGITAL

RRP: \$699.99

The new DDM4000 is a state-of-the-art digital DJ mixer with truly cutting edge and patented DJ technology.

Jam-packed with a plethora of creative tools, the DDM4000 puts ultimate versatility at your fingertips. Among the pioneering features are 4 fully programmable and beat-sync'able multi-FX modules, a pair of high-precision BPM counters, and a digital crossfader with custom curve adjustment.

Break serious new ground with the onboard BPM-sync'd sampler with real-time pitch control, loop and reverse functions. Hook up your turntables and CD / MP3 players to its four stereo

PRO MIXER VMX200

- 2 dual-input stereo channels
 - Intelligent dual auto-BPM counter with time and beat sync display
 - Gain and 3-band kill EQ (-32 dB) per stereo channel
 - Super-smooth, long-life faders and full VCA control
 - Dedicated curve control for all faders
- Reverse switch for crossfader
- Awesome XPQ 3D stereo surround effect
- PFL function with CH-1/CH-2 balance control and split option, assignable to level meter
- 1 microphone input with 2-band EQ plus auto-talkover function with depth control

RRP: \$179.99

PRO MIXER with Traktor software

channels, each with fully-programmable EQ and Kill switches. It also features a dedicated mic channel with two XLR inputs and you can sync up your outboard FX and sound modules via the MIDI clock output. The DDM4000 works seamlessly with Native Instruments TRAKTOR 3, which offers breath-taking sound quality coupled with an unprecedented array of features. The DDM4000's intuitive layout means you'll immediately feel at home with it, while editing, storing and recalling your settings is simply a breeze. Get a BEHRINGER DDM4000 and the show is yours.

- 32-Bit 5-channel digital DJ mixer with beat-sync'd sampler, 4 multi-FX sections, dual patented* BPM counters, digital cross-fader and MIDI clock output
- 2 microphone inputs with Gain, EQ, Talk function and FX
- 4 stereo phono/line input channels with Gain, programmable parametric 3-band EQ with Kill function, fader curve control and flexible crossfader assignment
- 2 freely assignable and BPM-synchronized, high-quality FX engines (Bitcrusher, Resonator, Reverb, Flanger etc.)
- Ultra-fast, accurate and patented BPM counters for automatic BPM synchronization of sampler, FX, crossfader and external MIDI drum machines
- Digital crossfader with flexible curve adjustment, reverse button and automatic, BPM-synchronized crossfading
- Headphone section includes PFL Mix/Split and Bass/Snare boost functions
- Recall your last mixer settings at the push of a button

* US Patent No. 6812394, German Patent No. 102 23 735

PRO MIXER VMX300

RRP: \$229.99

- 3 dual-input stereo channels, one switchable to mic level with auto-talkover function
- Intelligent dual auto-BPM counter with time and beat sync display
- Gain, 3-band kill EQ (-32 dB) and dedicated level meter per channel
- Super-smooth, long-life faders and full VCA control
- Front-panel 3-way kill switches with revolutionary keyboard-like tap & hold action
- Reverse switch for crossfader
- Awesome XPQ 3D stereo surround effect
- Dedicated curve control for all faders
- PFL function with PFL/Output balance control and split option

- 4 dual input stereo channels, 1 ULN² microphone channel with "Mic On" switch
- 47 breathtaking digital effect presets in 24-bit quality: delay, reverb, flanger, filter, panner, ultrabass, exciter, vinylizer, voice changer and more
- Intelligent dual auto-BPM counter with time and beat sync display
- Super-smooth VCA faders
- Awesome adjustable XPQ stereo surround effect
- VCA controlled crossfader with adjustable crossfader curve for utmost reliability
- 3-band kill EQ (-32 dB) and precise level meters with peak hold function per channel
- Additional 3-way kill switches with extremely steep frequency separation

RRP: \$399.99

PRO MIXER DX626

- Three dual input stereo channels with gain and 3-band kill EQ (-32 dB)
- One channel additionally switchable to studio-grade ULN² mic input
 - Intelligent dual auto-BPM counter
 - Super-smooth dual-rail ULTRAGLIDE crossfader (up to 500,000 cycles)
 - Manual talkover function
- PFL function with master/PFL mix option
- Peak-hold level meter with dedicated PFL bargraph
- Master, booth and tape outputs
- BNC gooseneck lamp socket

RRP: \$149.99

DJ headphones

HEADPHONES HPX4000

- Closed-type high-definition DJ headphones
- Ultra-wide frequency response 20 Hz - 20 kHz
- High-definition bass and super-transparent highs
- Ultra-high dynamic range
- High-efficiency cobalt capsule
- Single-sided coiled cord with oxygen-free copper wires
- Round swivelling ear cups
- Ultra-rugged headband construction
- Sensitivity: 113 dB @ 1 kHz
- Impedance: 32 Ohms

RRP: \$69.99

DJ creative tools

B-CONTROL DEEJAY BCD3000

RRP: \$399.99

With the included Traktor software package, the B-CONTROL DeeJay BCD3000 can play, mix and scratch MP3, AAC, WMA, OGG, WAV and AIFF files. It now runs on Windows XP and Mac OS X operating systems via USB connection.

B-CONTROL DEEJAY BCD2000

- Play, mix and scratch MP3, OGG and WAV files with a real vinyl feeling
- 4-channel full-speed USB audio interface with 24-bit converters, awesome sound and ultra low-latency ASIO driver
- Your complete DJ setup in a single controller/audio box: mixer, dual player, effects section, microphone preamp, 2 phono preamps plus a full-fledged monitor section
- Perfect control over DJ mixer, player and effects functions with the included BEHRINGER B-DJ software or most other MIDI DJ software (Windows XP only)

MINIMIX MIX800 karaoke

RRP: \$79.99

- Ultra-compact 9.5" karaoke machine for studio and stage applications
- Revolutionary Voice Canceller—effectively eliminates vocals from any stereo source while retaining most music elements
- Integrated digital echo/reverb processor in 24-bit/40 kHz resolution for ultimate vocal enhancement
- 2 independent mic channels with Level controls and Clip indicators for perfect level adjustment
- Dedicated 2-band EQ for awesome vocal enhancement and sound shaping

HEADPHONES HPX2000

- High-definition DJ headphones
- Ultra-wide frequency response 20 Hz - 20 kHz
- High-performance bass and super-transparent highs
- Ultra-high dynamic range
- High-efficiency cobalt capsule
- 1/8" connector plus 1/4" adapter included
- Single-sided cord with oxygen-free copper wires
- Rotating, reversible round-shaped ear cups
- Ultra-rugged headband construction
- Sensitivity: 110 dB @ 1 kHz
- Impedance: 64 Ohms

RRP: \$49.99

RRP: \$299.99

MINIBEAT BEAT800

RRP: \$79.99

- Ultra-compact 9.5" dual beat counter/phono preamp for studio and stage applications
- Intelligent dual BPM counters with Tempo Difference indicator
- Ultra-flexible Beat Assist and Sync Lock functions
- 2 state-of-the-art phono preamps with line inputs to accommodate turntables, CD players, etc.
- Accurate 6-segment LED input meters for precise level indication
- Ultra-low noise audio operational amplifiers offer outstanding sound performance

Kevin, BEHRINGER DJ Product Manager

Professional lighting systems

EUROLIGHT LC2412 console

RRP: \$399.99

- Professional 24-channel DMX lighting console
- 24 preset channels, assignable to 512 DMX channels
- Up to 3 DMX channels can be controlled per preset channel
- 120 scenes storable in 10 banks
- Integrated chaser with up to 650 steps featuring sync-to-audio chase
- Two additional, multi-functional channels for special effects (e.g. fog machine, color changer)
- Ultra-flexible fading functions for manual and automatic operation
- Dimmer control via DMX or analog output (0/+10 V)
- MIDI in/out

USB Audio guitar interface

GUITAR LINK UCG102

The GUITAR LINK UCG102 guitar-to-USB interface lets you jam and record using modeling amps and effects without the need for any other gear but your guitar.

The compact interface links your electric guitar to a PC or Mac computer via a typical USB cable, allowing you to rock with such sophisticated software as the included Guitar Combos BEHRINGER Edition from Native Instruments, Kristal Audio Engine multi-track recorder and Audacity audio editor. It also features a headphone output for convenient monitoring.

- The ultimate guitar-to-USB interface to jam and record with killer modeling amps and effects
- Enjoy immediate access to “Guitar Combos BEHRINGER Edition” from Native Instruments

RRP: \$79.99

- Package also includes Kristal 16-track music production and Audacity editing software
- Works directly with your PC or Mac computer—ultra-low latency ASIO driver for PC included
- Stereo headphone output lets you jam with your computer and can also be used for monitoring with active monitor speakers
- Variable-speed file playback function for MP3, WAV, AIFF audio files—perfect for easy learning and practicing

Guitars and guit ar packages

METALIEN iAXE629

Our first USB guitar was such a success that we decided to offer up this axe designed especially for metal heads. In addition to its dual single-coil pickups, the METALIEN has a furious humbucker in the bridge position for brutal chops and screaming leads, and sports a vintage-style whammy bar.

As with previous iAXE models, you also get a full software package including the Native Instruments Guitar Combos BEHRINGER Edition, Kristal 16-track music production and Audacity editing software.

Just plug into any PC or Mac via USB, then make your heavy metal dreams into mind-blowing screams from beyond! Plug n’ Rock!

RRP: \$299.99

- Plug this intriguing USB-guitar straight into your computer and turn your PC or Mac computer into a guitar amp and recording system without the need for any other hardware
- Superb double-cutaway electric guitar with 24 medium jumbo frets, rosewood fingerboard on a hard maple neck
- Powerful dual single-coil + humbucking pickup configuration and vintage-style vibrato bridge
- Package also includes “Guitar Combos BEHRINGER Edition” from Native Instruments, Kristal 16-track music production and Audacity editing software
- Works directly with your PC or Mac computer—ultra-low latency ASIO driver for PC audio optimization included

* Computer depicted is not included. Duh.

We hand-build our guitars. Very carefully. They get checked dozens of times at every stage of assembly. In fact we have one person who does nothing but tweak knobs to make sure the controls are smooth. All day long. Yu Xia above is not that person. Nor, when we asked her, did she particularly ever want to be. But somebody has to do it.

iAXE393 USB-Guitar

Built for the stage or the studio, the iAXE393 USB-guitar features an awesome USB interface, high-quality instrument build and breathes new life into traditional rock n’ roll.

With its three single-coil pickups, vintage-style tremolo system and lightning-fast maple neck, the iAXE393 allows you to bridge the gap between your brain and your computer.

The iAXE393 comes with a comprehensive software package, which includes Native Instruments Guitar Combos BEHRINGER Edition. These stunning combos perfectly recreate three classic guitar amps, providing absolutely authentic, warm and dynamic sound—it’s like having a truckload of amps and speaker cabinets.

Additionally, Kristal 16-track music production and Audacity editing software will have you laying down and mixing the slickest tracks your mind can conjure. Now you can take your musical ideas from concept to CD without ever leaving home.

RRP: \$239.99

- Plug this amazing USB-guitar straight into your computer and turn your PC or Mac computer into a guitar amp and recording system without the need for any other hardware
- Top-notch electric guitar with 22-fret maple neck, solid body, chrome machine heads, 3 single-coil pickups, 5-way switching and vintage-style vibrato bridge. Can also be used with any traditional guitar amplifier
- Guitar Combos BEHRINGER Edition from Native Instruments, Kristal 16-track music production and Audacity editing software
- Works directly with your PC or Mac computer—ultra-low latency ASIO driver for PC audio optimization included
- Powered via USB—no additional power supply required
- Available in Black or White

* Computer depicted is not included. Duh.

Why the mask? Because BEHRINGER City maintains world-class employee safety standards. Milling all that maple for guitar necks makes a lot of very fine sawdust which is not great in the lungs. Note the pink and yellow shirts, indicating that both of these craftspersons are Quality Control Inspectors.

BASS GUITAR PACK BT108BPKPB503-BK

If you’ve been dreaming of diving head-first into the low end of the rock spectrum, get ready to do it in style with the BEHRINGER Bass Guitar Pack. This vintage-style solid-body bass features a 34" scale, 21-fret maple fingerboard, single pickup, volume and tone controls. Just plug it into the ULTRABASS BT108 **15-Watt** bass amp with VTC Virtual Tube Circuitry (included) for a sound that’ll really shake the ground!

- Solid bass guitar featuring a 34" scale, maple neck, 21-fret maple fingerboard, vintage-style split pickup, volume and tone controls
- ULTRABASS BT108 **15-Watt** bass amp with VTC Virtual Tube Circuitry, powerful 8" speaker, 4-band EQ, headphone output and CD input
- High-quality instrument cable
- Adjustable strap
- 3 picks
- Padded gig bag
- Instruction book and more
- Top-notch bass guitar and perfect amp construction for years of fun
- Rock straight out of the box! You’ll be playing within minutes!

RRP: \$349.99

EL TORO GUITAR PACK GM108GPKST625-RD

Ready to rock straight out of the box, the El Toro guitar will make you sound like a pro. And not only do you get a great guitar, you get the sensational V-Tone GM108 amp, a gig bag, electronic tuner and gobs of accessories.

The El Toro’s super-fast maple neck with 22-fret rosewood fingerboard will have you shredding with the best of them. The dual single-coil plus 1 humbucking pickup combination and 5-way switching provides an endless tonal palette. The El Toro also features a vintage-style tremolo for everything from subtle surf tones to extreme dive bombs.

With a trio of selectable classic guitar amps, three speaker simulations, plus 3 gain modes, the V-TONE GM108 True Analog Modeling Amplifier provides 27 classic sound settings. And you can plug in a CD/Mp3 player and jam to your heart’s content. A handy headphone jack lets you hone your skills without disturbing others.

Hey, all the cool tones in the world won’t save you if you’re out of tune. So we’ve included a state-of-the-art tuner that provides seven different tuning modes and it’s just a toe-tap away.

The El Toro Guitar Pack includes everything you’ll need to fulfill your dreams, except the stage and the fans. That’s up to you!

RRP: \$249.99

- Top-notch electric guitar featuring a maple neck, 22-fret rosewood fingerboard, solid body and sealed chrome machine heads
- Available in 4 stunning colors: Red, Black, Blonde and Sunburst
- The V-Tone GM108 15-Watt modeling amp with 27 classic guitar amp sound presets amplifier
- Auto-chromatic tuner for accurate and easy tuning
- Padded gig bag
- High-quality instrument cable
- Adjustable guitar strap
- Three picks
- Guitar instruction book and amp manual

RRP: \$129.99

Did we mention that we make all of our own speakers including those for our guitar amp cabinets?

Guitar amplification / digital modeling

V-AMPIRE LX110*

RRP: \$249.99

This beast has mind-blowing tone, is brutally loud and super compact. Built around a 24-bit DSP, this modeling workstation recreates the sounds of 16 classic amp/cabinet models with astonishing fidelity. A powerful **45-Watt** amplifier drives the heavy-duty full-range 10" BUGERA dual-cone speaker to give full justice to each and every tone.

The V-AMPIRE LX110 is definitely not short on effects—select from a range of modulation effects including chorus, auto-wah or pitch shifter and combine with the separate delay, reverb and compression sections for almost limitless sonic flexibility. Store your favorite settings with ease in any of the 100 memory locations. You want a tuner, too? It's all built in. Just plug and rock!

- Powerful **45-Watt** digital modeling workstation with 16 classic amp and cabinet models
- Original heavy-duty 10" BUGERA dual-cone full-range speaker for faithful sound reproduction
- 100 memory locations—easily editable and storable
- Amp/speaker simulation, compressor, noise gate, EQ, modulation effects, delay and reverb simultaneously or in any combination
- Awesome modulation and pitch bend effects
- Extremely low-noise instrument input ensures maximum guitar signal integrity
- Super-precise and adjustable auto-chromatic tuner

Where BEHRINGER INSTRUMENT AMPLIFICATION cabinets are born.

V-AMPIRE LX1200H, LX210 & LX112

V-AMPIRE LX1200H RRP: \$399.99

- 2 x **60-Watt** digital guitar modeling amplifier head
- **120-Watt** mono or 2 x **60-Watt** stereo operation

V-AMPIRE LX210 RRP: \$449.99

- 2 x **60-Watt** digital guitar modeling workstation
- 2 original heavy-duty 10" BUGERA Vintage Guitar speakers
- 2 x **60-Watt** true stereo operation

V-AMPIRE LX112 RRP: \$449.99

- 2 x **60-Watt** guitar combo with 12" BUGERA speakers, interactive amp modeling and 24-bit multi-effects processor

Common features:

- 32 authentic amp models, 15 speaker cabinet simulations, 16 multi-FX such as noise gate, compressor, wah-wah, modulation effects, delay, reverb, etc.
- 125 memory locations, divided into 25 banks of 5 presets each
- Intuitive rotary controls with dedicated LED indicators
- 15 rear-panel connectors allow comprehensive routing to suit

- virtually any conceivable application—plus MIDI In, Out/Thru
- MIDI implementation includes program changes, control changes and SysEx

Acoustic / performance amplification

ULTRACOUSTIC ACX1800, ACX900 & ACX450

ULTRACOUSTIC ACX1800 RRP: \$599.99

- **180-Watt**, 2-channel stereo amplifier for acoustic instruments and vocals
- 2 original 8" BUGERA dual-cone speakers for ultimate sound reproduction

ULTRACOUSTIC ACX900 RRP: \$499.99

- **90-Watt**, 2-channel stereo amplifier for acoustic instruments and vocals
- 2 original 8" BUGERA dual-cone speakers for ultimate sound reproduction

ULTRACOUSTIC ACX450 RRP: \$399.99

- **45-Watt**, 2-channel amplifier for acoustic instruments and vocals
- Original 8" BUGERA dual-cone speaker for ultimate sound reproduction

Common features:

- 2 integrated, 24-bit digital FX processors each with 16 awesome effects programs including reverb, modulation, delay, and various effects combinations
- Individual graphic EQ on each channel for awesome sound shaping

- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies
- CD input allows you to play along to your favorite music
- Dual footswitch FS112 for FX 1 & 2 bypass included

ULTRACOUSTIC AT108

RRP: \$149.99

- Extremely versatile 2-channel acoustic instrument amplifier
- Powerful **20-Watt**, 8" dual-cone speaker for wide frequency response
- Additional microphone input with separate volume control
- VTC Virtual Tube Circuitry for tube-like sound
- Ultra-musical 3-band EQ for ultimate sound shaping
- CD input allows you to play along to your favorite music
- Separate headphone output—perfect for quiet practicing
- High-quality components and exceptionally rugged construction ensure long life

Cabinets

ULTRASTACK BG412S & BG412H

- **400-Watt** power rating
- Four original BUGERA **100-Watt 12"** speakers
- Slanted cabinets
- Switchable mono or stereo operation
- Second ¼" jack serves as parallel "thru" connector in mono
- Special surround circuitry for enhanced stereo imaging with concrete center position yet optimal efficiency with mono amps (BG412S only)
- Acoustically transparent steel speaker grill
- Black vinyl covering, chrome steel corners, die-cast handles and detachable casters

ULTRASTACK BG412V

- High-power 4 x 12", **200-Watt** guitar cabinet
- Original 4 x 12" heavy-duty BUGERA speakers for ultimate guitar tone reproduction
- Switchable **200-Watt**, 4-Ohm mono or 2 x **100-Watt**, 8-Ohm stereo mode operation
- Recessed carrying handles and rollers for easy transportation
- Extremely low-resonance and low-vibration cabinet
- Reinforced corners and protective vinyl covering
- Exceptionally rugged construction for long life and durability

Bass amplification

ULTRABASS BVT5500H 550-Watt head

The ULTRABASS BVT5500H bass amplifier head with **550-Watts** includes the revolutionary VTC Tube Modeling to offer the sound and feel of a real tube amp. This piece of gear impresses with features such as the Voicing selector with 5 ultimate sound variations and the switchable Overdrive channel for more aggressive sounds. It also includes a 9-band graphic EQ as well as Bass, Mid and Treble controls—perfect for ultimate sound control.

- Powerful **550-Watt** bass amplifier head for classic sound and performance
- VTC Tube Modeling gives you the sound and feel of an authentic tube amp
- Voicing selector provides you with 5 ultimate sound variations to suit your playing style
- Switchable Overdrive channel for a more aggressive tube amplifier sound
- Ultra-musical 9-band graphic EQ for total frequency control
- Dedicated Bass, Mid and Treble controls for ultimate sound shaping
- Switchable limiter for ultimate volume without distortion

BEHRINGER Instrument Amplification bass amp packing and circuit board inspection. This amp has your name written all over it.

ULTRABASS BVT4500H 450-Watt head

With the ULTRABASS BVT4500H bass amplifier head, you get an amp head that offers immense power and tone. It boasts **450-Watts** and the revolutionary VTC Tube Modeling to offer the sound and feel of a real tube amp. The head also includes a 9-band graphic EQ as well as Bass, Mid and Treble controls for ultimate sound control. In addition, the XLR direct output gives you the option to connect to a mixing console.

- Powerful **450-Watt** bass amplifier head for classic sound and performance
- VTC Tube Modeling gives you the sound and feel of an authentic tube amp
- Ultra-musical 9-band graphic EQ for total frequency control
- Dedicated Bass, Mid and Treble controls for ultimate sound shaping
- Switchable limiter for ultimate volume without distortion
- Balanced XLR DI output for direct connection to your mixing console

ULTRABASS BX4500H

- **450-Watt** bass amplifier with patented*** DYNAMIZER technology
- Switchable ULTRABASS subharmonics processor
- Revolutionary "Shape" filter
- Extremely musical 5-band EQ with "Bright" and "Deep" functions
- Integrated limiter and active, temperature controlled cooling system
- Dual footswitch included
- Balanced XLR DI output, effects loop, dedicated tuner and line outputs
- 3 speaker outputs on ¼" jack and professional speaker connectors (compatible with Neutrik Speakon connectors)

ULTRABASS / THE NUKE BT25000H—2500-Watts of seismic power for true fanatics

This stereo bass amplifier head comes with **2,500-Watts** of brutal power and is probably the world's most powerful bass amp. Besides breath-taking sound and kilowatts of power, the NUKE amp offers split-operation for true bi-amping using the integrated crossover.

But that's not all: the BT25000H features our revolutionary VTC Tube Modeling technology. It provides the classic sound and feel of a real

tube amp in a state-of-the-art, ultra-reliable technological power house.

This beast also includes a 9-band graphic EQ as well as dedicated Bass, Mid and Treble controls—perfect for controlling this explosive piece of gear. The NUKE: be careful where you use it.

- Insanely powerful **2,500-Watt** true bi-amping stereo bass amplifier
- 2 x **1,250-Watt** stereo or **2,500-Watt** bridged mode
- VTC tube modeling gives you the sound and feel of an authentic tube amp
- Integrated crossover with dedicated Frequency and Balance controls for bi-amping operation
- Active, ultra-musical 9-band graphic EQ for total frequency control
- Dedicated Bass, Mid, Treble and extra Mid frequency control

ULTRABASS BXL3000A, BXL1800A, BXL900A & BXL450A

- Powerful bass workstations in wedge-shaped cabinet
- Original BUGERA HARD ATTACK aluminum-cone speaker
- Clean channel with dedicated Gain control
- Distortion channel with dedicated Gain, Shape and Level controls
- Ultra-musical, active graphic EQ with FBQ Spectrum Analyzer
- Switchable ULTRABASS subharmonics processor for unbelievable low-end power (BXL3000A/BXL1800A/BXL900A only)
- Integrated Compressor smoothes out volume peaks when playing dynamic slaps (BXL3000A/BXL1800A only)
- Revolutionary "See what you play" FBQ frequency indicator for instant sound shaping
- Musical limiter for ultimate volume without distortion
- Separate headphone output—perfect for quiet practicing
- CD input allows you to play along to your favorite music

BXL3000A: **300 Watt**, 15" Speaker RRP: \$599.99
BXL1800A: **180 Watt**, 12" Speaker RRP: \$499.99
BXL900A: **90 Watt**, 12" Speaker RRP: \$399.99
BXL450A: **45 Watt**, 10" Speaker RRP: \$299.99

ULTRABASS BXL3000, BXL1800, BXL900 & BXL450

- Powerful bass workstations in wedge shaped cabinet
- Original BUGERA special high-impact cone speaker
- Clean channel with dedicated Gain control
- Distortion channel with dedicated Gain, Shape and Level controls
- Ultra-musical, active graphic EQ with FBQ Spectrum Analyzer
- Switchable ULTRABASS subharmonics processor for unbelievable low-end power (BXL3000/BXL1800 and BXL900 only)
- Integrated Compressor smoothes out volume peaks when playing dynamic slaps (BXL3000/BXL1800 only)
- Revolutionary "See what you play" FBQ frequency indicator for instant sound shaping
- Musical limiter for ultimate volume without distortion
- Separate headphone output—perfect for quiet practicing
- CD input allows you to play along to your favorite music

BXL3000: **300 Watt**, 15" Speaker RRP: \$599.99
BXL1800: **180 Watt**, 12" Speaker RRP: \$499.99
BXL900: **90 Watt**, 12" Speaker RRP: \$399.99
BXL450: **45 Watt**, 10" Speaker RRP: \$259.99

ULTRABASS BXR1800H

You want a super-fat **180-Watt** 2-channel bass amp? You also want it compact and in rack-mountable format? Then get a load of this—the ULTRABASS BXR1800H is a bass monster with a built-in ULTRABASS subharmonics processor to give you extra lows and a compressor to beef up your sound. Want it "clean and fat", or "dirty and fat"? No problemo—this heavyweight **180-Watt** monster can do it all and sweep your audience off their feet.

- Ultra-compact and rack-mountable **180-Watt** 2-channel bass amplifier
- Clean channel with dedicated Gain control
- Distortion channel with dedicated Gain, Shape and Level controls
- Ultra-musical, active 7-band graphic EQ with FBQ spectrum analyzer
- Switchable ULTRABASS subharmonics processor for unbelievable low-end power
- Integrated compressor smoothes out volume peaks when playing dynamic slaps

ULTRABASS BX1800

- Powerful and ultra-compact **180-Watt** bass workstation
- Original BUGERA 15" special high-impact cone speaker
- Custom-made horn tweeter for high-end punch
- VTC Virtual Tube Circuitry for tube-like sound
- Dedicated 4-band EQ and Mid Shape function for awesome sound shaping
- Musical opto-limiter for ultimate volume without distortion
- Separate headphone output—perfect for quiet practicing
- Balanced XLR DI and Ground Lift switch for direct connection to your mixing console

ULTRABASS BT108

- Extremely versatile bass amplifier with powerful **20-Watt**, 8" speaker
- VTC Virtual Tube Circuitry for tube-like sound
- Dedicated 4-band EQ for ultimate sound shaping
- CD input allows you to play along to your favorite music
- Separate headphone output—perfect for quiet practicing
- High-quality components and exceptionally rugged construction ensure long life

Bass amplification

ULTRABASS BX4410A & BX4410

- Powerful **450-Watt** bass workstation with front-ported bass cabinet
- 4 original BUGERA 10" HARD ATTACK aluminum-cone speakers (BX4410A only)
- 4 original BUGERA 10" special high-impact cone speakers (BX4410 only)
- Custom-made 1" horn tweeter for ultimate punch
- Recessed carrying handles and integrated rollers for easy transportation
- Patented*** DYNAMIZER technology for ultimate punch and to capture every nuance of your playing
- Switchable ULTRABASS subharmonics processor for unbelievable low-end power

BX4410A
RRP: \$999.99

BX4410
RRP: \$899.99

RRP: \$799.99

ULTRABASS BX4210A
bass workstation

- Powerful **450-Watt** bass workstation with front-ported bass cabinet
- Original BUGERA 10" HARD ATTACK aluminum-cone speakers
- Custom-made 1" horn tweeter for ultimate punch
- Recessed carrying handles and integrated rollers for easy transportation
- Patented*** DYNAMIZER technology for ultimate punch and to capture every nuance of your playing
- Switchable ULTRABASS subharmonics processor for unbelievable low-end power
- Dedicated 5-band EQ with Deep, Bright and Shape functions for awesome sound shaping

THUNDERBIRD BX108 warm-up practice amp

- Vintage **15-Watt** rehearsal/warm-up bass combo
- Custom-made 8" speaker in a vented cabinet
- Cool retro design with burgundy top panel, gray covering and leather handle
- Great-sounding 3-band EQ and level control
- Stereo tape I/O plus phones out

RRP: \$159.99

Bass cabinets

ULTRABASS BA Series

Common features:

- Reinforced chamber, front-ported bass cabinet
- Original BUGERA HARD ATTACK aluminum-cone speakers
- Switchable 1" custom-made horn tweeter for high-end punch
- Input and link outputs on ¼" TS and professional speaker connectors (compatible with Neutrik Speakon connectors)
- Unique tweeter remote control via footswitch or FCB1010

ULTRABASS BA410 RRP: \$699.99

- High-performance **1,000-Watt** bass cabinet with 4 x 10" speakers and 1" horn driver; Impedance 4 Ohms

ULTRABASS BA210 RRP: \$399.99

- High-performance **500-Watt** bass cabinet with 2 x 10" speakers and 1" horn driver; Impedance 8 Ohms

ULTRABASS BA115 RRP: \$399.99

- High-performance **600-Watt** bass cabinet with an 15" speaker and 1" horn driver; Impedance 8 Ohms

ULTRABASS BB Series

Common features:

- Reinforced chamber, front-ported bass cabinet
- Original BUGERA speakers with special high-impact cones
- Switchable 1" custom-made horn tweeter for high-end punch
- Input and link outputs on ¼" TS and professional speaker connectors (compatible with Neutrik Speakon connectors)
- Unique tweeter remote control via footswitch or FCB1010

ULTRABASS BB410 RRP: \$599.99

- High-performance **1,200-Watt** bass cabinet with 4 x 10" speakers and 1" horn driver; Impedance 4 Ohms

ULTRABASS BB210 RRP: \$399.99

- High-performance **600-Watt** bass cabinet with 2 x 10" speakers and 1" horn driver; Impedance 8 Ohms

ULTRABASS BB115 RRP: \$399.99

- High-performance **600-Watt** bass cabinet with an 15" speaker and 1" horn driver; Impedance 8 Ohms

Keyboard amplification

ULTRATONE KT108*

RRP: \$149.99

- Extremely versatile 2-channel keyboard amplifier
- Powerful **20-Watt**, 8" dual-cone speaker for wide frequency response
- 2 instrument inputs with separate volume control for each channel
- VTC Virtual Tube Circuitry for tube-like sound
- Dedicated 3-band EQ for ultimate sound shaping
- CD input allows you to play along to your favorite music
- Separate headphone output—perfect for quiet practicing

* Not available in Europe

ULTRATONE K900FX & K450FX

K450FX

K900FX

- 3-channel PA system / keyboard amplifier
- BUGERA woofer and custom-made 1" driver (K450FX: BUGERA speaker only)
- 24-bit digital FX processor with 100 awesome presets
- 5-band graphic EQ with FBQ Feedback Detection
- XLR mic input and line output
- Subwoofer line output for low-end power
- Pole socket for stand mounting

K900FX: **90 Watt**, 12" Speaker RRP: \$399.99

K450FX: **45 Watt**, 10" Speaker RRP: \$299.99

ULTRATONE K3000FX & K1800FX

K1800FX

K3000FX

- Ultra-flexible 4-channel PA system / keyboard amplifier
- Powerful BUGERA woofer and custom-made 1" driver
- 24-bit digital FX processor with 100 awesome presets
- Dedicated 7-band graphic EQ with FBQ Feedback Detection
- Extra XLR mic input for direct dynamic mic connection
- Balanced stereo XLR DI with Ground Lift switch
- Headphone output and CD input
- Subwoofer line output for ultimate low-end power

K3000FX: **300 Watt**, 15" Speaker RRP: \$599.99

K1800FX: **180 Watt**, 12" Speaker RRP: \$499.99

Effects and modeling processors

BASS V-AMP PRO

RRP: \$299.99

- The ultimate rackmount tone toolbox for bass, acoustic/electric guitar and keyboard amp modeling with additional 24-bit/96kHz digital output
- 32 amp models, 23 speaker cabinet simulations, noise gate, compressor, wah-wah, modulation effects, delay and reverb
- Pre and post DSP insert loops
- Balanced stereo XLR DI out with ground lift and switchable ULTRA-G cabinet simulation
- AES/EBU and S/PDIF connectors allow usage as an all-purpose A/D converter
- BNC wordclock input, MIDI In, Out/Thru

V-AMP 2

RRP: \$199.99

- Virtual guitar amplifier with amp simulation and multi-effects
- 32 amp and 15 speaker simulation models, independently selectable
- High-resolution 24-bit stereo multi-effects processor
- Separate wah-wah and reverb effects
- Effective 3-band EQ with amp model dependent characteristics plus global 3-band EQ
- Five new configuration modes for various applications
- Balanced stereo line out with speaker simulation plus stereo headphones out and adjustable stereo aux line in
- Comprehensive MIDI implementation
- Dual footswitch, AC adapter and carrying bag included

BASS V-AMP

RRP: \$199.99

- The ultimate tone toolbox for bass/ acoustic/electric guitar and keyboard amp modeling
- 32 amp models, 23 speaker cabinet simulations, noise reduction, compressor, wah-wah, distortion pedal simulations etc.
- 16 analog and digital multi-effects including ultrabass, synth, delay/loop sampler, chorus, flanger, rotary speaker, voice box, auto wah, phaser, ambience and reverb
- Stereo aux input
- Comprehensive MIDI implementation
- 4 renowned distortion and overdrive stomp boxes with adjustable DRIVE, TONE, BOOST and SPLIT
- Wah-Wah pedal and studio compressor effects

V-AMP PRO

RRP: \$299.99

- Professional guitar amp modeling and multi-effects processor with additional 24-bit/96 kHz digital output and ULTRA-G cabinet simulation
- 32 amp models, 15 speaker cabinet simulations, noise gate, compressor, wah-wah, modulation effects, delay and reverb
- Stereo headphones output with volume control, adjustable auto-chromatic tuner and internal power supply unit
- Balanced stereo XLR DI out with ground lift switch
- Pre and post DSP insert loops
- AES/EBU and S/PDIF connectors
- BNC wordclock input, MIDI In, Out/Thru

V-TONE GUITAR GDI21, V-TONE BASS BDI21 & V-TONE ACOUSTIC ADI21

GDI21

RRP: \$69.99

BDI21

RRP: \$69.99

ADI21

RRP: \$69.99

- Analog modeling preamps/stomp boxes with DI recording output
- Dual DI mode for direct recording output
- Output available on ¼" TS or balanced XLR connectors
- Ground lift switch eliminates typical ground loop problems
- Runs on 9V battery or the BEHRINGER PSU-SB DC power supply (not included)

X V-AMP

RRP: \$149.99

- 16 original V-AMP amp/speaker simulations, including a special acoustic simulation and amp bypass function
- 24-bit high-resolution stereo multi-effects processor including first-class stomp box simulations, delay, wah-wah, chorus, flanger, reverb, noise gate and compressor effects and many more
- Freely assignable expression pedal for real-time control of effects or wah/volume control
- Amp and cabinet simulation, compressor, noise gate, EQ, modulation effects, delay and reverb can be used simultaneously in any combination
- Awesome modulation and pitch bend effects

Effects pedals

VINTAGE TIME MACHINE VM1 & VINTAGE BASS VB1

These vintage-style effects pedals lend your sound a nice rich, full body and thrilling dimension.

The VM1 is an awesome combination of effects that includes chorus, vibrato and delay. With up to 550 ms of organic echo, it provides plenty to compete with your vintage tape delay. Dial in the sounds of the 1970s with this fantastic piece of gear and let your sounds travel back in time comfortably, leaving the struggle with nasty tape loops and worn-out mechanical gear behind you.

The VB1 simulates vocal sounds with a classic dual-sweeping filter. Plug in your bass guitar in this magic stomp box and enjoy unique tone colors, crazy sounding effects, psychedelic-style sounds and distortion rich with overtones. Each pedal runs on a 9 V battery or the BEHRINGER PSU-SB DC power supply (not included) and features a hard-wire bypass for ultimate signal integrity.

- Dedicated Delay, Chorus/Vibrato, Feedback, Mix and Level controls for awesome sound shaping (VM1)
- Vintage dual dynamic filter/distortion mode pedal (VB1)
- Blue status LED for effect on/off and battery check
- True hard-wire bypass for ultimate signal integrity

VINTAGE DISTORTION VD1

VINTAGE PHASER VP1

- Authentic and classic three dimensional phase shifting—from rapid rotary speaker to impressive jet plane effects
- Dedicated Rate control and separate Tone switch for fine-tuning of effects speed and tone
- Status LED for effect On/Off and battery check
- True hard-wire bypass for ultimate signal integrity
- Rugged metal chassis stands up to active use and abuse
- Runs on 9V battery or the BEHRINGER PSU-SB DC power supply (not included)

PHASER PH9, INTELLIGATE IG9 & DYNAMICS COMPRESSOR DC9

These 3 hot little stomp boxes just might re-ignite your passion for playing. The PH9 features 90° phase shifting with spacey warbles and mind-blowing hypnotic swirls, whereas the IG9 is an intelligent noise gate that effectively cancels out unwanted noise and hum.

The DC9 is a dynamics compressor that makes your clean guitar sound kick ass, big time. Each pedal runs on a 9 V battery or the BEHRINGER PSU-SB DC power supply (not included) and features a hard-wire bypass for ultimate signal integrity.

- Classic effects such as phase shifting and dynamics processing
- Blue status LED for effect on/off and battery check
- True hard-wire bypass for ultimate signal integrity
- High-quality components and exceptionally rugged metal construction ensure long life

VINTAGE TUBE OVERDRIVE VT911 & VINTAGE TUBE MONSTER VT999

Both the VT911 and VT999 are top-quality real tube overdrive pedals that come with hand-selected vacuum tubes to give your sound that cozy warm tone you don't want to miss. Take off with anything from warm blues overdrive to heavy distortion—every nuance of the most-wanted distortion tones can be found in the classic tube overdrive pedal VT911.

If classic, low-down and dirty distortion is what you're after, the VT999 has it all—and it includes an integrated, switchable noise gate that will keep your signal noise-free! Each pedal runs on a 9 V battery or the BEHRINGER PSU-SB DC power supply (not included) and features a hard-wire bypass for ultimate signal integrity.

- Dedicated Drive, Tone and Level controls for awesome sound shaping (VT911)
- Integrated and switchable Noise gate with adjustable Threshold keeps your sound noise-free (VB1)
- Blue status LED for effect on/off and battery check
- True hard-wire bypass for ultimate signal integrity

HELLBABE HB01

- Multi-functional Wah-Wah pedal—offers everything you need for all styles and sounds
- Ultra-musical Q control for precise filter shaping to achieve vocal-like effects
- Total optical control for wear-and-tear-free pedal operation (no mechanical pots and switches)
- Unique spring-back pedal mechanism with resistance adjustment for ultimate playing style (option to remove)
- Heel-down frequency range freely adjustable via Range control (440 Hz to 250 Hz) for use even with bass guitars

What exactly is RSM?

Effects processing devices have been around for a very long time. They have taken the form of everything from mechanical doohickies that raise and lower the pitch of a string, like a “whammy bar,” to the electronic circuitry that recreates the highly complex reflected sound of a subterranean cavern. Ever since early mortals began making sounds, we’ve been trying to make the sound better or alter it to our liking. It’s part of our very nature.

At BEHRINGER, we build some of the finest audio gear around, so it was only natural for us to use our expertise to build a better stomp box. But to do so, we first had to develop an entirely new technology—Real Sound Modeling. Our RSM technology combines state-of-the-art DSP technology with sophisticated algorithms that emulate real-world acoustic environments. Such high-level processing requires electronic architecture that takes into account virtually all factors affecting sound.

The sound of a musical instrument is affected significantly by a number of factors before it is actually heard: the materials used, the instrument’s design and construction, and the components incorporated into the transducer and amplification system. Even the subtle interaction between amplifier stages can affect the overall quality of the sound generated by real instruments through real amps. This is especially true in tube amplifiers, where the gain structure of preamp stages creates a cascading effect all the way to the output

Put simply, the average stomp box processor does not have the power to mimic these subtle nuances, which are so critical to attaining the level of realism that BEHRINGER RSM technology achieves. Thorough research and analysis of these factors has enabled us to reinvent the stomp box! RSM equipped pedals deliver the detail of true-to-life amplifier and effects modeling, without unwanted artifacts or fake-sounding approximations.

The high-performance RSM engine is only available in BEHRINGER products that bear the RSM logo. Hearing is believing.

Effects pedals

Overdrive, Distortion & Fuzz

Distortion is the oldest trick in rock’s book. Like fingerprints, no two axe grinders’ tastes are ever quite the same. Whether you’re in the market for warm, bluesy overdrive, volcanic metal distortion or anything in between, we’ve got you covered with the market’s widest selection of dirt boxes.

Get the modeled sounds of three legendary distortion pedals in one exceptional stomp box: D+, DS1 and RAT. Just pick your pedal then twist the dedicated Distortion, Tone and Level dials to take control of rock’s tastiest tones.

This devastating distortion pedal enhances with both a gain and bass boost, giving you bottom-heavy crunch like none other. Its dedicated Gain-Boost, Distortion, Tone, Bottom and Level controls let you create a whole new standard in metal.

This demon’s dual ultra-gain circuit creates a vicious modern metal tone with a boosted bottom end. The dedicated Gain, Warp, Level and Sub controls turn your amps into instruments of sonic destruction.

The UD100’s dual-mode switch lets you choose between warm overdrive and screaming distortion. Just twist the dedicated Level, Tone and Distortion dials to create a distortion that’s distinctly yours.

Stomp this badass box for endless feedback and super-thick distortion that show no mercy! Use its dedicated Overtone, Distortion, Tone and Level controls to create a sound of sonic mayhem that’s distinctly yours.

This stomp box easily handles all things heavy: thrash, metal and hard rock. Its Distortion, Punch, Contour and Level controls let you add a brutal low end with gobs of high-end bite to any style of rock n’ roll.

This heavy distortion box features ultra-high gain circuitry to give you thick distortion with endless sustain. Dedicated Distortion, 2-band EQ and Level controls let you personalize your own style of brutal rock.

This wild thing has three different sound modes to give you the choice of classic fuzz, garage rock or a good old-fashioned gain boost. The dedicated Gain, 2-band EQ and Level dials control a wide spectrum of primal rock power.

The SM400 will satisfy your craving for extreme distortion and endless sustain. With its High and Low frequency EQ controls, the SM400 can generate anything from a slight crunch to a fat-bottomed juggernaut that will not be denied!

Recreate the mind-warping sound of the ‘60s and ‘70s with this screaming stomp box. The UZ400’s dedicated Fuzz, Tone and Level controls take you to all corners of the proto-punk universe, giving you buzzsaw power chords and fiery solos.

With the UM300 ULTRA METAL, you get control of not just the Mids, but of the Mids within the Mids! The Distortion, High, Low, Level and dual Mid controls give you full control over thick distortion with merciless sustain.

Get the sound of valve-powered overdrive with smooth sustain and crunchy chords with the T0800. This workhorse uses original 4558 ICs and MA150 distortion diodes for authentic vintage sound.

Chorus, Phaser & Flanger

Since the 1960s, mankind has constantly searched for ways to alter, mutate, multiply and otherwise expand the sound of their electronic instruments. We gladly foster this crazed quest with a line of stomp boxes designed to help you take a walk on the weird side.

Sometimes the simplest approach works best. Just select one of the CC300’s four super-cool presets and relax. Each of the optimized presets covers a wide range of applications. Stereo chorusing has never been this easy.

While most chorus pedals give you only limited high-frequency capabilities, the CD400’s EQ knob lets you take full control of critical high frequency content. The Level, Rate and Depth controls will help turn your coolest riffs into stone-cold classics.

This ultra-versatile stomp box lets you dial in anything from a mild vintage chorus to a super-thick, spacious stereo effect. Dual outputs send signals to separate amps, allowing every crescendo to come through in true stereo sound.

You get incredibly thick, cool chorusing with the UC200 Ultra Chorus Pedal. The dual outputs allow you to send signal to two separate amps or destinations for true stereo processing. Achieve great tone by putting your foot down—on the UC200!

The PH9 adds 90° phase shifting to your sound, taking your tone from modern to vintage at the flip of a switch. A single Rate control sets the phase-shifting speed, and state-of-the-art switching gives you the ultimate in signal integrity.

Effects pedals

RRP: \$89.99

SUPER PHASE SHIFTER SP400
Whether you're into vintage psychedelic or space rock, BEHRINGER RSM technology gives you penultimate phase shift with the SP400. Use the Mode switch, plus Resonance, Depth and Rate controls to go anywhere from light phase to complete mind-melt!

RRP: \$49.99

ULTRA PHASE SHIFTER UP100
You get two phasers in one with the UP100 Ultra Phaser. Choose from classic phase shifting, or a more radical mode that offers out-of-this-world vibrato-like effects. Level, Rate, Depth and Resonance controls provide articulate sound shaping.

RRP: \$89.99

FLANGER MACHINE FL600
This far-out flange pedal packs three killer sounds into one amazing stomp box. BEHRINGER RSM (Real Sound Modeling) technology gives you analog, tape and digital flange, with sound quality rivaling that of studio processors.

RRP: \$89.99

SUPER FLANGER SF400
Send your amp into the ozone with the SF400 Super Flanger. BEHRINGER Real Sound Modeling technology lets you choose between modern or vintage flange that'll put a trippy, oscillating spin on your sound.

RRP: \$49.99

ULTRA FLANGER UF100
So much more than just a flanger, the UF100 provides classic flange along with a healthy dose of chorus, vibrato and delay. The Manual, Depth, Rate and Resonance controls let you boldly go where no flange has flown before.

RRP: \$49.99

HI BAND FLANGER HF300
Unlike conventional flangers, the HF300 puts the flanging one octave higher than the input signal, creating a distinctly brighter and cleaner sound. Tweak the Resonance, Rate, Depth and Manual controls to personalize this, the most unique flanger on the market.

Compressor / Limiter

Compression is an invaluable tool for boosting quiet notes and squashing loud ones to create a smooth, consistent sound. Our compressors and limiters will help you squeeze every note into the proverbial sweet spot.

RRP: \$49.99

COMPRESSOR/LIMITER CL9
The CL9 works much like an automatic level control, restricting the dynamics of your playing. Whether your gig calls for slippery funk grooves, articulate "chick'n-pick'n" or aggressive sustain, the CL9 will become one of your favorite tone tools.

RRP: \$49.99

COMPRESSOR/SUSTAINER CS100
When you step on the CS100, you get smooth, buttery compression and endless sustain. You can attenuate loud levels and boost subtle signals, without degrading your original sound. Dedicated controls give you compression with expression.

RRP: \$49.99

DYNAMICS COMPRESSOR DC9
Get crisp, spanky sound from your clean signal and face-melting sustain on your leads with the DC9. This amazing pedal smoothes out volume peaks for ultra-stable dynamics. And with its true hardware bypass, you'll always have the highest signal integrity.

Reverb, Delay & Multi-FX

There's nothing like an echo to either soften your sound or shroud it in ghostly ambience. No matter how you like your reverb and delay, these pedals will help you redefine the boundaries of the space-time continuum, continuum, continuum...

RRP: \$49.99

DIGITAL REVERB DR100
Nothing fattens up the sound of a thin guitar like reverb, and you get TRULY great reverb from the DR100! With sound quality rivaling that of studio reverb processors, the DR100 will add warmth and tremendous depth to your playing.

RRP: \$49.99

DIGITAL REVERB DR600
Whether you choose a classic Spring, Plate or Hall reverb, DR600's 24-bit stereo engine will take your music to the best sounding aural spaces you've ever experienced. It's reverb like nothing you've heard before, plus Gate, Room and Modulate settings!

RRP: \$89.99

REVERB/DELAY DR400
This digital reverb/delay sounds just like a state-of-the-art studio processor! It uses BEHRINGER Real Sound Modeling (RSM) to combine DSP technology with sophisticated algorithms to emulate real acoustic environments—all in 24-bit high-resolution stereo sound!

RRP: \$89.99

REVERB MACHINE RV600
With its RSM processor and DSP technology, the RV600 Reverb Machine delivers dead-on modeling of Ducking, Space, Cave, Tile, Echo, Vintage '63 Spring, Spring, Plate, Room, Chamber and Hall reverbs. Simple controls—simply amazing!

RRP: \$49.99

DIGITAL DELAY DD400
The DD400 effects pedal offers 7 different time modes for everything from subtle to radical stereo delay and echo capabilities, with resolution comparable to that of state-of-the-art studio rackmount processors. The DD400 will add tremendous dimensionality to your tone.

RRP: \$89.99

DIGITAL DELAY DD600
The DD600 is no mere pedal—it's a veritable studio in a box! Its 11 unique delay modes are powered by BEHRINGER Real Sound Modeling technology and emulate real acoustic environments, providing delay you can almost reach out and touch.

RRP: \$89.99

ECHO MACHINE EM600
Every branch of the delay family tree—analog, tape and digital—is packed into this pedal and ready to send your tone into orbit. BEHRINGER RSM technology gives you access to every imaginable flavor of this most curious ambient garnish.

RRP: \$49.99

DIGITAL MULTI-FX FX600
The FX600 offers an incredible array of 24-bit high-resolution stereo effects, including Flanger, Chorus, Phaser, Delay, Tremolo and Pitch Shifter. With its dual inputs and outputs, you can send and receive a true stereo signal that'll blow your mind.

RRP: \$49.99

VINTAGE DELAY VD400
The VD400 produces true analog delay and vintage slap-back echo that rivals any tape delay. Its vintage BBD circuitry gives you up to 300 ms of delay while an advanced noise reduction circuit keeps your signal squeaky clean.

Vintage Series

Sound technology never stops evolving, but sometimes the rock n' roll sounds of decades past are just what the doctor ordered. Whether you're craving vintage vacuum tube distortion or mind-blowing envelope effects heard in classic psychedelia, our Vintage Series is your ticket to rock's golden years.

RRP: \$69.99

VINTAGE BASS VB1
Make your bass talk or use the dual sweeping filters of the VB1 to add a little top-end sizzle to rhythm parts and solo playing. Switch to Distortion mode for psychedelic harmonic overtones with highly sensitive dynamic responsiveness.

RRP: \$69.99

VINTAGE PHASER VP1
Get classic three-dimensional phase shifting, everything from rapid rotary speaker to mind-blowing jet plane effects—with the BEHRINGER VP1. Use the dedicated Rate control and separate Color switch for fine-tuning of the effect speed and tone. Great for guitars and keyboards.

RRP: \$69.99

VINTAGE DISTORTION VD1
The VD1 gives you authentic, classic distortion—the same growling tone that has ruled rock for the last 30 years. Thanks to its high-performance features, the VD1 reproduces the natural dynamics of your playing and lets your guitar scream.

More effects pedals

RRP: \$89.99

VINTAGE TUBE OVERDRIVE VT911
The VT911 gives you classic tube overdrive powered by a hand-selected BUGERA 12AX7 tube. Its Drive, Tone and Level controls produce everything from subtle to tube-soaked overdrive. True bypass circuitry protects the integrity of your signal.

RRP: \$129.99

VINTAGE TIME MACHINE VM1
Experience true analog delay with the VM1, which gives you up to 550 ms of echo, a vibrant chorus and vibrato. Its dedicated Delay, Feedback, Mix, Level and Chorus/Vibrato controls let you customize a sound all your own.

RRP: \$129.99

VINTAGE TUBE MONSTER VT999
The VT999 Vintage Tube Monster is powered by a hand-selected BUGERA 12AX7 vacuum tube, and can deliver anything from a moderate overdrive to totally saturated distortion. Get a whole amp in a pedal and unleash a hot monster!

Octave, Tremolo, Vibrato & Wah

Whether you're ready to give your axe a steady pulse or teach it to speak for itself, we offer pedals that deliver everything from vintage to modern tones that will bring your sound to life like nothing else can.

RRP: \$49.99

ULTRA OCTAVER UO100
Thicken up any guitar or bass by adding notes one to two octaves below the original tone with the UO100. This amazing octaver stomp provides total control over the levels of the original as well as the extra, lower octave notes.

RRP: \$49.99

ULTRA OCTAVER UO300
The UO300 adds notes one and two octaves below every note you play, giving you rich, thick leads and monstrous chords. This pedal provides complete control over the Direct Tone, as well as the added octaves for tremendous bottom end.

RRP: \$89.99

SUPER OCTAVER SO400
Generate an output one octave below your single notes with the Super Octaver, powered by BEHRINGER Real Sound Modeling technology. Create lush, 3-D leads or homungous open chords you can mix with a dry signal via the pedal's direct output.

RRP: \$49.99

ULTRA TREMOLO UT100
Surf's up when you take the stage with the stunning BEHRINGER UT100 Ultra Tremolo. Its dedicated Rate, Wave and Depth controls enable you to quickly and easily dial up the mind-bending tremolo effects of vintage '60s amps.

RRP: \$49.99

ULTRA VIBRATO UV300
Like a refreshing blast from the past, the BEHRINGER UV300 delivers the classic pitch modulation and dimensional vibrato that had everyone groovin' in the '60s and '70s. From a subtle shimmer to a whirling Leslie speaker box, the UV300 can do it all.

RRP: \$49.99

ULTRA TREMOLO/PAN TP300
Tear the pulsing sonic bliss of vintage tremolo out of the '60s and fuse it into your sound with the TP300. Four distinct tremolo modes plus Depth, Rate and Mode controls provide the ambience of the ages in this power-packed pedal.

RRP: \$89.99

DYNAMIC WAH/HUMAN VOICE DW400
This little loudmouth can run wild with your tone or yield to your control via its tap-tempo mode. No matter how you use it, the DW400 puts a new spin on a timeless psychedelic landmark and features BEHRINGER RSM digital technology.

RRP: \$49.99

ULTRA WAH UW300
The UW300 boasts dynamics-sensitive auto-wah effects for all styles and sounds. In other words, your picking attack and style controls the modulation effect. The Sensitivity, Manual, Depth and Rate controls enable unparalleled wah shaping.

RRP: \$69.99

HELLBABE HB01
The ultimate wah pedal, the optically controlled BEHRINGER HB01 Hellbabe features a flexible Q filter control, adjustable heel-down frequency range and a tunable boost function, enabling you to push your sound to the very limit.

Modeling

RRP: \$49.99

ACOUSTIC MODELER AM100
Give your electric guitar the rich, warm tone of an acoustic. Its quad-mode switch lets you choose standard, large, piezo or bright models. Dual outputs allow you to feed the electric and acoustic sounds to separate amplifiers.

RRP: \$89.99

ULTRA ACOUSTIC MODELER AM400
Go from electrified to acoustic in the blink of an eye with this incredible acoustic modeler. The AM400 uses BEHRINGER RSM digital technology to make your electric guitar sound like any of the four most famous acoustic guitars.

RRP: \$49.99

TUBE AMP MODELER TM300
The TM300 is loaded with modeling sounds, including 3 authentic classic amps, 3 gain modes and 3 mic placements, for a total of 27 stunning configurations. Achieve the most sought-after tube amp sounds, from squeaky clean to tube-stack distortion.

RRP: \$69.99

V-TONE GUITAR GDI21
The GDI21 features 3 classic guitar amps, 3 gain modes, 3 mic placements and a dedicated XLR DI output. Amplifier models include: CALIF, with its fat, round and sophisticated tones, TWED, for crystal clear sounds and dynamic bass, and BRIT, for more aggressive mids and legendary sustain. You can also choose one of three distinct models for each amp—Hot, HI G (high gain) and CLN (clean). All this flexibility enables you to dial up the most sought-after tube amp sounds, from clean to super-fat distortion.

RRP: \$69.99

V-TONE ACOUSTIC ADI21
The ADI21's authentic tube/microphone modeling circuitry provides the natural warmth and presence of miking your guitar through a tube pre-amp. Its 3-band EQ gives you sweepable mids for accurate feedback control and eliminates harsh harmonics. The ADI21 also functions as a professional-grade DI box for both live and recording applications. Become supremely connected, thanks to the gold-plated XLR socket, complete with a ground lift switch and -20 dB pad. The handy blend control allows you to mix your input acoustic's natural sound with the processed signal for incredible depth.

RRP: \$69.99

V-TONE BASS BDI21
This analog modeling bass preamp/stompbox isn't just another direct input box for recording or performance applications. You can also use it to dial up vintage tube tones, slap sounds, crunch distortion, and a truckload of priceless amp tones that would normally require a mountain of effects processors. It is a DI box—and a great one at that, with a gold-plated XLR socket and ground lift, so you can avoid those ugly hum loops. Step up to solid bass with the V-Tone Bass BDI21.

Special Purpose

Flange, wah and delay are tons of fun, but staying in tune, killing 60-cycle hum and sending signal to multiple amps is downright crucial! That's why we created this tough, dependable toolkit of workhorse stomp boxes designed to help keep the working musician's basic needs covered.

RRP: \$49.99

CHROMATIC TUNER TU300
The TU300 gives you seven amazingly accurate tuning modes for guitar or bass, even 5 and 6-string basses. You simply won't find a better tuner thanks to an 11-point LED stream that can be calibrated from 438 Hz to 447 Hz.

More effects pedals

RRP: \$49.99

INSTRUMENT/AMP SELECTOR AB100
Use this stomp box to instantly switch between two instruments playing through one amp, or to switch between two amps receiving signal from one instrument. The Mode dial lets you quickly A/B between the configurations you need.

RRP: \$89.99

ROTARY MACHINE RM600
The RM600 uses BEHRINGER Real Sound Modeling technology to give your amp a flurry of incredible rotary speaker sounds. Twist the dedicated Model, Blend, Drive, Slow, Fast and Ramp controls to put a new spin on your sound.

RRP: \$49.99

BASS GRAPHIC EQUALIZER BEQ700
The BEHRINGER BEQ700 provides 7-band graphic equalization designed specifically for the bass guitar, even 5 & 6-string instruments. Its super-wide frequency range (from 50 Hz to 10 kHz) offers the ultimate in sound sculpting capability.

RRP: \$39.99

Use our new general purpose PSU-HSB 9 V DC power adapter to power virtually all your guitar or bass guitar stomp boxes and effects pedals.

- 1.7 A current capacity can power more than 20 effects pedals, keyboards and other DC 9 V gear*
- Supplied with a full complement of connectors and jumper cables for total compatibility
- Takes up only one outlet space and frees up more room for your pedals
- Runs on any AC power supply from 100-240 V; worldwide usability without transformer
- Transformerless design eliminates 50/60-cycle hum and extraneous noise

RRP: \$49.99

GRAPHIC EQUALIZER EQ700
Shape your sound and eliminate feedback with the EQ700's 7 bands of equalization. This must-have pedal covers a wide frequency range, 100 Hz to 6.4 kHz, with a 15dB boost or cut per band. Why settle for less than complete control?

RRP: \$49.99

SPECTRUM ENHANCER SE200
Make sure the contrast of high to low in your sound is loud and clear with the SE200. The dedicated Spectrum and Balance controls emphasize your axe's full tonal capabilities. It's like putting an extra band of EQ right at your feet!

RRP: \$49.99

BASS LIMITER ENHANCER BLE100
Set sail for smooth low-end waters with this must-have stomp box that eliminates rough volume peaks in your bass lines, without killing your upper harmonic frequency spectrum. It even works great for aggressive slapping and popping!

RRP: \$89.99

FILTER MACHINE FM600
Bring the tastiest frequencies of your tone to the forefront with the FM600 Filter Machine. Choose from Band Pass, Twin or Low Pass filter modes to create a sound that's got all of what you want, and nothing you don't!

RRP: \$49.99

SLOW MOTION SM200
The SM200 filters out the initial attack and automatically swells the volume of your playing, creating the same effect you get when bowing a violin or cello. Just twist the dedicated Attack and Sensitivity controls to set a whole new standard in slow!

RRP: \$49.99

BASS OVERDRIVE BOD100
Add the sound of vintage tubes to your bass, even 5 & 6-string basses, with the BOD100. This crunch machine allows you to mix your dry signal with the perfect amount of grind for amazing clarity and punch.

RRP: \$49.99

INTELLIGATE IG9
This must-have pedal allows all the great parts of your sound to come through, while selectively suppressing frequency-sensitive noise components, like RF and 60-cycle hum. The Sensitivity control works with the bandwidth switches to clean up your sound—fast.

RRP: \$89.99

ULTRA SHIFTER/HARMONIST US600
The US600 is always there to add whammy dives of up to two octaves above or below the original note, harmonies and pitch shift. Real Sound Modeling technology gives you an incredible palette of incredible complementary effects.

RRP: \$89.99

BASS SYNTHESIZER BSY600
BSY600's RSM circuitry can turn your bass or guitar into a raging bass synthesizer with the flick of a single switch. Choose from 11 different waveforms and generate low end that will set off seismic detectors in neighboring townships!

RRP: \$19.99

- General purpose DC 9 V power adapter
- Converts to DC 9 V for use with virtually all stomp boxes and effects pedals
- Typical DC-type 2.2 mm plug with negative tip and positive sleeve
- Provides a generous 100 mA current to power even digital products

RRP: \$49.99

NOISE REDUCER NR100
In the land of single-coil pickups, 60-cycle hum is everyone's nemesis. The NR100 can tame that beast and preserve the original dynamics of your playing. Use the dedicated and simple Threshold and Decay controls for superb, noise-free sound.

RRP: \$49.99

BASS CHORUS BCH100
The BCH100 features a built-in crossover, delivering a rich chorus effect to the upper frequency range without muddying the lows. With its dual outputs, you can produce a mystifying stereo effect by sending the signals to separate amps.

RRP: \$49.99

ULTRA BASS FLANGER BUF300
Freak out your bass with the BUF300's flange, thick chorus, vibrato and short delay effects. It retains your original bass punch and clarity through any amount of weirdness you dial in via its dedicated Resonance, Rate, Depth and Manual controls.

Joe, BEHRINGER USA, laying down the truth.

...in fact the largest range of effects pedals in the world.

BASS TRIO TPK988

- Get serious low-end rumble with this set of stompboxes for modern bass guitar sounds
- The BASS OVERDRIVE BOD400 provides tube-like distortion and super fat tone, with Balance control to blend between overdriven and dry bass sound for maximum punch
- The BASS LIMITER ENHANCER BLE100 smoothes out harsh volume peaks when using dynamic slaps or other playing styles

- The BASS CHORUS BCH100 gives you super thick chorus with unbelievable stereo effect
- Package includes all cables to interconnect the pedals and connect directly to your bass amplifier: 10' high-quality instrument cable and 2 short patch cables
- High-quality components and exceptionally rugged construction ensure long life

RRP: \$149.99

METAL TRIO TPK985

- All-out set of stompboxes for stunning metal guitar shoot-outs
- The SUPER METAL SM400 boasts brutal distortion, mind-blowing sustain and the sound of an overdriven stacked tube amp
- The DIGITAL MULTI-FX FX600 features 24-bit high-resolution stereo effects such as Flanger, Chorus, Phaser, Delay, Tremolo and Pitch Shifter
- The DIGITAL DELAY DD400 provides 24-bit high-resolution

- stereo delay/echo using RSM (Real Sound Modeling) technology for a delay time up to 1.3 s
- Package includes all cables to interconnect the pedals and connect directly to your guitar amplifier: 10' high-quality instrument cable and 2 short patch cables
- High-quality components and exceptionally rugged construction ensure long life

RRP: \$149.99

BLUES ROCK TRIO TPK987

- Versatile set of stompboxes for all classic rock and blues guitar sounds
- The TUBE AMP MODELER TM300 comes with authentic modeling technology that lets you easily achieve the most sought-after tube amp sounds from clean, crunch to super-fat distortion
- The ULTRA VIBRATO UV300 lets you experience classic and mind-bending, dimensional vibrato effects of the '60s and '70s

- The DIGITAL DELAY DD400 provides 24-bit high-resolution stereo delay/echo using RSM (Real Sound Modeling) technology for a delay time up to 1.3 s
- Package includes all cables to interconnect the pedals and connect directly to your guitar amplifier: 10' high-quality instrument cable and 2 short patch cables
- High-quality components and exceptionally rugged construction ensure long life

RRP: \$149.99

KEYBOARD TRIO TPK989

- Spice up your keyboard sounds with this set of cool modulation effects boxes
- The ULTRA TREMOLO UT100 delivers the classic, warm and mind-bending tremolo effects of vintage '60s amps
- The ULTRA CHORUS UC200 gives you super-thick chorus with unbelievable stereo effect
- The DIGITAL MULTI-FX FX600 features 24-bit high-resolution

- stereo effects including Flanger, Chorus, Phaser, Delay, Tremolo and Pitch Shifter
- Package includes all cables to interconnect the pedals and connect directly to your keyboard amplifier: 10' high-quality instrument cable and 2 short patch cables
- High-quality components and exceptionally rugged construction ensure long life

RRP: \$149.99

JAZZ TRIO TPK984

- A premium bundle of stompboxes for the electric jazz guitar player
- The ultimate tonal toolbox for all styles of jazz, whether you're into the sizzling sounds of fusion or the cool strains of smooth jazz
- The COMPRESSOR/LIMITER CL9 gives you powerful, percussive sound with ultimate sustain
- The CHORUS ORCHESTRA CO600 fattens up your tone with a warm, vintage chorus or a super-thick and spacious stereo effect

- The DIGITAL REVERB DR600 provides 24-bit high-resolution stereo Spring, Plate, Hall, Room, Gate and Modulate reverb modes
- Package includes all cables to interconnect the pedals and connect directly to your guitar amplifier: 10' high-quality instrument cable and two short patch cables
- High-quality components and exceptionally rugged construction ensure long life

RRP: \$149.99

Guitar accessories

PEDAL BOARD PB1000

Pedal board is sold without the pedals shown.

The PEDAL BOARD PB1000 is an ultra-compact and rugged pedal board for musicians who want to pre-arrange and carry up to 12 effects pedals in a heavy-duty, yet light-weight, case. It features a generous 1.7 A power adapter and includes all cabling to power multiple stomp boxes simultaneously.

- Ultra-compact and lightweight pedal board for transporting up to 12 effects pedals
- Generous 1.7 A power adapter included for powering more than 12 devices*—includes all cabling
- Ultra-rigid plastic design withstands even heavy impact

MIDI FOOT CONTROLLER FCB1010

RRP: \$349.99

- Ultra-flexible MIDI foot controller with 2 expression pedals
- 100 user-editable presets in 10 banks
- Two expression pedals with freely assignable MIDI channel, controller number and range
- Five MIDI program change and two MIDI control value commands per preset (simultaneously transmittable)
- MIDI note-on commands for trigger and tap-tempo applications
- Two programmable ¼" relay jacks, e.g. for amp channel selection
- MIDI merge and SysEx backup and restore
- Easily programmable in a standing position
- Integrated power supply—no messy AC adapters

DUAL A/B SWITCH AB200

- 
- 2-channel footswitch for stage and studio applications
 - Usable for all products with external control functions such as guitar amps, keyboards, rhythm machines, lighting products, etc.
 - Easily switch between two input signals into one output or vice versa (e.g. switch between two guitars using one amplifier or two amplifiers with one guitar)
 - Programmable latching/non-latching modes selectable for both channels

RRP: \$49.99

ULTRA-DI DI100

RRP: \$79.99

- Professional active direct injection box
 - Converts unbalanced line inputs to balanced outputs
 - Ground lift switch eliminates typical ground loop problems
 - Internal battery automatically shuts off when phantom power is connected
 - Direct connection of amplifier outputs with ratings of up to **3,000-Watts**
 - Switchable input attenuation allows input levels up to +50 dB
 - BEHRINGER DT-1 output transformer for full galvanic insulation
-
- RRP: \$79.99

ULTRA-DI PRO DI4000

- Professional 4-channel active direct injection box
- Converts unbalanced line inputs to balanced outputs
- Extremely linear frequency response from 10 Hz to 50 kHz
- +20 dB gain switch for preamplification of low-level signals
- Switchable attenuation allows maximum input of +50 dB
- S/N ratio -95 dB, THD <0.005%
- Polarity reverse switch for instant correction of phase problems
- BEHRINGER DT-1 output transformer for full galvanic isolation

RRP: \$149.99

ULTRA-DI DI600P & DI400P

RRP- \$59.00

DI400P
 000 100 00

- High-performance passive direct injection box
 - Converts any unbalanced line-level signal to balanced mic-level output
 - Provides impedance and signal matching for the direct connection of instruments to amplifiers and mixers
 - Allows the use of long cables without losing high frequencies
 - Thru/Out jack lets you send the unbalanced signal to an onstage amplifier while the balanced signal is routed to the mixer
 - Switchable Inst/Amp input for connecting instruments or amplifier outputs with up to **3,000-Watts** (DI600P only)
 - Filter switch reduces annoying hiss and buzz (DI600P only)
- 
- DI600P
RRP: \$399
- DI400P
RRP: \$399

RACKTUNER BTR2000

- Multi-functional tuner including built-in microphone for use with acoustic instruments
- Useful metronome, adjustable from 30 to 240 bpm with audible and visual beat indicator. You can also work on-the-fly with the manual TAP tempo function
- Integrated, switchable rack lights with high-power LEDs helps illuminate your rack
- 11 different tuner modes (e.g. "chromatic," "banjo" or open tunings) based on 12 equally tempered tones

RRP: \$149.99

FOOT CONTROLLER FCV100

RRP: \$49.99

ULTRA-G GI100

RRP: \$89.99

- High-quality active direct injection box with switchable 4 x 12" speaker simulation
 - Switchable input attenuation allows input levels of up to +48 dBu
 - Ground lift switch eliminates typical ground loop problems
 - Internal battery automatically shuts off when phantom power is connected
 - Direct connection of amplifier outputs with ratings of up to **3,000-Watts**
 - Rugged, road-proof aluminum case
 - Stackable oversized rubber corners
 - BEHRINGER OT-1 output transformer for full galvanic insulation and S/N ratio of over 100 dB

ULTRA-DI PRO DI800

RRP: \$149.99

- Professional, multi-purpose 8-channel direct injection box
- Converts unbalanced line inputs into balanced outputs
- Optional mains or phantom powered operation
- Ultra-flat frequency response due to servo-balanced operation
- Allows direct connection to speaker outputs with up to **3,000-Watts**
- Ultra-low noise operational amplifiers for outstanding audio performance
- +20 dB gain switch for pre-amplification of low-level signals
- Attenuation switch for input levels up to +40 dBu
